## Emergency Measure Goes to House

# Senate Passes 1st Anti-Recession Bill

WASHINGTON (AP) — The Senate has passed its first major anti-recession measure of the 1958 session — an emergency housing bill its Democratic sponsors hope would give jobs to more than half a million workers.

The \$1,850,000,000 bill now goes to the House. Speaker Rayburn (D-Tex.) has said he will give housing legislation priority.

## Teachers At Leetonia To Get Training

LEETONIA — Inauguration of an in-service training program for teachers was discussed for the coming year when the Board of Education held its regular meeting Wednesday evening at Orchard Hill School.

Area teachers desiring additional credit hours will be eligible to attend. Details for the teaching seminar will be worked out by the Board and Superintendent Paul Hayes.

It was reported that following an unofficial visit to the school system by Glenn A. Rich, director of elementary and secondary education of the state department of education, the following recommendations were suggested:

THE INDUSTRIAL ARTS room be renovated to provide a larger shop area, a general metals area, an electrical area, and an area for woods and mechanical drawing; and development of a general shop program for the ninth and 10th grade levels; and the opportunity for specialization on the 11 and 12 grade levels.

The proposed changes in the program will be discussed at the next meeting of the board.

## Realty Taxes Paid on Third of County Parcels

LISBON — Vincent C. Judge, county treasurer, said taxes have been paid on approximately one-third of the real estate parcels in the county, based on the ownership as of Jan. 1, 1957.

Any person who has not received a statement but owned real estate on Jan. 1, 1957, should contact the treasurer's office before March 25, the deadline for payment of the taxes.

Tax statements are mailed as an aid to the collection and failure of the statement to reach the owner gives him no legal defense against the penalties, Judge said. A penalty is added if taxes are not paid by the deadline.

## Council Warns Neutral Nations Of Red Menace

Asian Countries Got Over \$700 Million In Aid During 1957

MANILA (AP) — The SEATO Council ended its fourth annual conference today with a swipe at neutralist nations which won't recognize the dangers of communism and a promise of only slightly more economic aid to help the Asian pact members develop their resources.

The foreign ministers of the eight nations outlined the results of their meeting in a 1,200-word communique which pinpointed "the insidious character" of Communist subversion as Southeast Asia's "most substantial current menace."

Without naming them, the council warned "some non-Communist governments" against "failing to distinguish between the aims and ideals of the free world and the purposes of international communism." The communique said because of "the insidious character of Communist subversions, there was particular danger arising from these governments."

### No Big Program Announced

The communique announced no big new program of economic aid to meet Pakistani charges that such neutral nations as India were getting more help than free world allies.

Instead the Council of Ministers pointed out that SEATO's three Asian members — Pakistan, Thailand and the Philippines — had gotten more than 700 million dollars in economic aid in the past year, principally from the United States.

The communique said the programs of extensive bilateral and other economic arrangements between the SEATO countries would continue. In addition, it cited U.S. Secretary of State Dulles' announcement that the United States would put up two million dollars for a program of vocational and on-the-job training for Asian members, and the Australian grant of one million pounds (\$2,230,000) to the Asian members.

### Getting Most of U.S. Aid

The communique also called attention to Dulles' statement that the major portion of U.S. economic aid now is going to Asia.

Dulles himself made a personal effort to soothe Pakistan. After the final conference session, he drove off with Commerce Minister N.M.A. Qizilbash, the Pakistani delegate, for a private talk.

The communique carefully avoided any mention of the shooting war in Indonesia, in line with SEATO's official policy of not intervening in affairs of nonmembers.

## Liquor Sales in Ohio Set New Record in '57

COLUMBUS, Ohio (AP) — Thirsty Ohioans purchased 12,224,408 gallons of liquor last year—a record for the state.

Liquor Director Floyd C. Moon said the 1957 total topped 1956 sales—the previous record year—by 67,668 gallons.

Dollarwise, sales amounted to \$223,698,462, an increase of \$4,515,515 over 1956.

The increase was due to mounting retail sales. Wholesale sales to permit holders who sell by the glass declined, Moon said.

## Organization Hopes to Arouse Public Support for Better Facilities Here

# UCT to Campaign for Post Office Expansion

The United Commercial Travelers will spearhead a community campaign to secure better Post Office facilities for Salem, members of the Salem Council of the UCT decided at a meeting Wednesday night at the Elks Home.

The Salem Post Office building, erected in 1915, has never been improved or enlarged in the ensuing 43 years although two projects were submitted but never materialized, apparently, due for lack of funds.

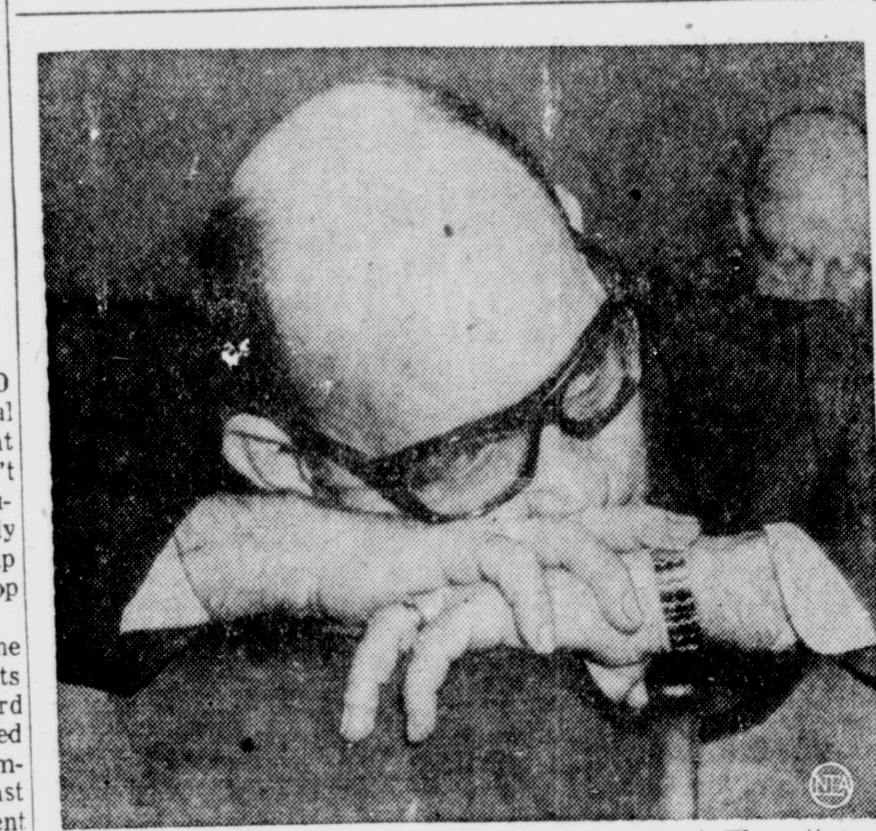

Ray J. Greenstein, UCT senior counselor, appointed Rudy Lindner, First Ward city councilman, chairman of the drive. He will be assisted by William J. Mackey, Guy Mauro, W. J. Hunston, George Bowman Jr., Galen Greenstein, William Schaeffer and Ray Reich.

UCT members agreed with a recent News-Editorial that "apparently it's up to the citizens of the community to demand better post office facilities."

The fraternal organization plans to call on all local organizations and the general public to start a letter-writing campaign in order to get recognition for the needed improvements.

UCT Council Secretary C. Raymond Reich, who has served as assistant postmaster since 1947, pointed out that both the Post Office Department and the General Services Administration, which has the actual control over federal buildings, are interested in the project.

## It's Shawnee Indian Name Chosen For Boy Scout District Here

The northern half of Columbiana County, formerly known as the northern district of Columbiana Council, Boy Scouts of America, will now be known as the Shawnee District.

Cub Scouts, Boy Scouts and Explorer Scouts voted throughout the past month to select an Indian name for the district.

At the monthly meeting held at the McKinley scout reservation last night, representatives from all institutions which sponsor scouting, voted according to the instructions of their units to choose the Shawnee name for the district.

## Motorist Is Cited Following Accident

One person was arrested Wednesday following two auto mishaps which occurred on area highways.

Dewey Mead, 34, of Columbiana was cited for reckless operation after his car crashed head-on into an auto driven by Kim Hoover, 17, of Columbiana on Rt. 14, two and one-half miles east of Columbiana, at 9:30 p.m.

State highway patrolmen are investigating a hit-skip accident which occurred on Rt. 30, one mile north of East Liverpool, at 8:45 p.m.

Patrolmen are seeking a dark green, 1950 or 1951 Dodge which struck a truck-trailer operated by Robert Pyle, 41, of Follansbee, W. Va. The car sustained considerable damage to its left side and patrolmen urge anyone seeing it to report it.

James D. Carman, 38, of Sebring miraculously escaped serious injury when a truck-trailer overturned and crushed his car at the intersection of Leffingwell Road and Rt. 46, one-half mile south of Canfield, Wednesday at 6 p.m.

Canfield state highway patrolmen said Carman's car was "flattened" by the truck operated by Wilmer E. Moore, 37, of Mishawaka, Ind.

They said the accident occurred when Carman attempted to make a right turn off Rt. 6 onto Leffingwell Road. Moore couldn't stop his truck in time to avoid collision and swerved to pass Carman's car on the right hand side, causing the trailer to overturn.

Patrolmen said Carman was pinned in the wreckage which had to be pried apart to free him. He sustained but a small cut on his left hand.

His car was a complete loss. Moore was arrested for unsafe operation.

## Cut Would Add Extra \$2-3 to Weekly Check

Quick Antirecession Stimulant Sought by Congressional Chiefs

WASHINGTON (AP) — An income tax cut of the sort now under consideration in Congress would add an extra \$2 to \$3 to the weekly pay check of the average American breadwinner.

In the aggregate it would mean the quick addition of an estimated five billion dollars of new consumer buying power.

This immediate release of new buying power is the primary goal of tax planners seeking a quick antirecession stimulant.

Whether a tax cut actually will be attempted, and when, have not yet been decided. It is one of several things under study.

Congressional tax experts say that any tax cut would be reflected immediately in the form of fatter employee paychecks because of lower tax withholdings.

Self-employed individuals, who pay their taxes quarterly, would be able to give themselves a tax credit equal to the percentage cut when mailing their next quarterly tax installment.

The greatest impact of an overall individual income tax cut would be on the low and middle income taxpayer, who make up the majority of the nation's 43 million individual taxpayers.

The plan under serious consideration by House leaders would cut from 20 per cent to 15 per cent the tax on the first \$1,000 of taxable income — in effect a 25-per-cent cut there. A 5 per cent cut would be provided in all other personal income tax rates.

If enacted, this cut would mean another \$2 of weekly spendable income for the average married taxpayer with two dependents who earns \$5,000 a year.

For the taxpayer in the \$10,000 income bracket, the tax saving is estimated in the neighborhood of \$3 a week.

# Leopold Ends Long Prison Sentence

JOLIET, Ill. (AP) — Nathan Leopold, who served 33 1/2 years in prison for a bobbled effort to commit a perfect murder, walked to freedom today determined to become a perfect example of prison rehabilitation.

Leopold waved his hat as he stepped through the gates of Stateville Prison's administration building. He was surrounded immediately by newsmen.

There were few townspeople from nearby Joliet on hand as Leopold ended his long prison sentence.

After a secret meeting with relatives in Chicago, he plans to fly to Puerto Rico for a \$10-a-month job as a laboratory worker in a mission hospital.

## Dallas Bishop Faces Another Trial Monday

LISBON — Former East Liverpool special officer Dallas Bishop, 40, acquitted of one burglary charge Wednesday in Common Pleas Court at Lisbon, faces another burglary trial Monday.

County Prosecutor G. William Brokaw said Bishop will be tried on an indictment charging burglary of the Smith & Phillips Co. furniture store in East Liverpool in 1952.

A jury of eight women and four men returned a directed verdict of acquittal in the trial yesterday of the tall, sandy-haired Bishop, who was charged with the 1954 burglary of the Berman Lumber Co. in East Liverpool in 1954.

Judge Raymond S. Buzzard directed the verdict on a defense motion that the crime charged in the indictment and the crime described in the state's testimony were not the same. No defense witnesses were called.

The testimony of the state's chief witness, Robert McBane, a former East Liverpool patrolman who pleaded guilty in 1956 to eight burglary indictments, failed to connect Bishop with the lumber company burglary on June 10, 1954, the date given in the indictment.

McBane testified Bishop was a witness with him on an earlier occasion only.

Bishop, McBane and two other patrolmen, Ira Cunningham and Jerome Raimond were named in the Berman Co. indictment. Cunningham and Raimond were tried previously and acquitted.

Three other officers were implicated in the 1956 East Liverpool police burglary scandal.

## Commissioners Assn. Sets Meeting Here

Columbiana County commissioners will be hosts at the spring meeting of the Northeastern Ohio Commissioners' Association at the Timberlakes Monday, March 31.

The meeting will begin with a 1 p.m. luncheon. Arrangements are being made by Walter A. Hunston, vice president of the association.

M. C. Ebright of Wayne County is president. The program for the meeting will be announced later, Hunston said.

# Asian Flu Struck Estimated Twenty Million Americans

By FRANK CAREY  
AP Science Reporter

WASHINGTON (AP) — The Public Health Service feels it is unlikely — but possible — that a second epidemic wave of Asian flu will follow on the heels of the virtually ended recent outbreak.

So says Dr. William H. Stewart, assistant to Surgeon General LeRoy W. Burney, in summarizing the American experience in the recent worldwide epidemic which sickened millions and killed thousands throughout the world, although the death rate was very low; struck an estimated 20 mil-

lion Americans, killing no less than 6,500; caused the temporary closing of hundreds of U.S. schools and cost industry a staggering total of man-hours lost.

## Would Be Mild

But even if a second nationwide epidemic should occur between now and the first of May, said Stewart in an interview, the service feels it would be "relatively mild from the standpoint of the mortality being very, very low, as it has been in the recent epidemic."

"Since you can't say with certainty that a second wave will or will not occur," he said, "the wisest course is to be conservative and make your plans" on the basis of possible recurrence.

"Thus the health service is continuing to urge people who haven't already done so to get vaccinated — particularly people in the 'high risk' groups such as the chronically ill, the aged, and pregnant women," Stewart emphasized. "In these groups we are also recommending second shots for the highest individual protection."

Japan Reported 2nd Wave  
On the unlikely side of the picture, health officials point out that despite the global scope of the recent epidemic, only one country has reported what appeared like a substantial second wave. That was in Japan, but the outbreak there has pretty well died down now.

Meanwhile, here's a rundown on the American phase of the worldwide epidemic which started in Red China last February but didn't reach the United States until June:

1. More than 20 million Americans are believed to have been affected, most of them since September, with the peak of the epidemic occurring in mid-October. This is the largest number of flu cases of any kind since the 1918 epidemic.

Total Fatalities Undetermined  
2. Total number of deaths has

Prognosis: victims have been known to recover from the rare condition, and the parents are praying that modern medicine will save the child.

not been specifically determined, but one indication is this:

Between September and March 1, the latest statistics available 103 major cities of the United States reported 16,174 deaths from influenza and pneumonia, compared with 9,038 for the same period a year ago. The difference, health service officials say, indicates about 6,500 deaths were due to the 1957-1958 outbreak of Asian flu. Fatal cases have occurred most frequently among the aged.

3. Approximately 40 million cubic centimeters of vaccine have been used so far — indicating that at least that many persons have been vaccinated.

## Ohio Farmers Get \$1 Billion For Products

WASHINGTON (AP) — Ohio farmers received almost one billion dollars from the sale of crops and livestock during 1957, the U.S. Department of Agriculture reported today.

The exact figure was \$990,526,000 — a decrease of 3 per cent from 1956 and 2 per cent under the 10-year (1947-56) average of \$1,015,644,000.

The net income per Ohio farm last year was \$2,117, down five per cent from 1956, the department said.

A decline in corn and wheat prices is primarily responsible for the dip in income, the department reported.

Cash receipts for livestock and livestock products totaled \$637,210,000 up 2 per cent over 1956. But receipts for crops during 1957 dropped to their lowest level since 1951. The total was \$353,316,000, the department estimated.

Total payments made to Ohio farmers under federal price support and soil bank programs almost doubled last year. The figure was \$30,678,000 as compared with \$15,985,000 in 1956.

## Man Seeks \$15,000 For Injuries to Son

LISBON — A suit asking damages of \$15,000 was filed in Common Pleas Court Wednesday as the aftermath of a pedestrian accident.

Hume Webb of Salem MC 1 asks this amount from John Homer Eddy of Salem RD 1, for personal injuries allegedly caused to his son, Arless D. Webb, 10.

Webb claims his son was struck by the defendant's car as the boy was crossing County Road 400 at a school crossing about one-half mile south of Rt. 62 at 8:10 a.m., March 15, 1956.

The plaintiff claims the defendant operated his vehicle in a reckless manner.

## Economists to Watch Consumer Loan Trend

### EDITOR'S NOTE:

Least hamstrung by tight money, the easy payment purchaser may respond later than most to easy money. In the following article, last of a series of three, Sam Dawson, AP Business News Analyst, discusses the outlook for installment loans.

By SAM DAWSON

**NEW YORK (AP)** — The consumer who borrows to buy — either on the installment plan or in a lump sum from the bank — may see little change so far under the new easier money policy. But as those who finance his purchases find a larger supply of credit to tap at lower rates, the benefits are beginning to trickle down to the on-the-cuff man.

Easy money as counter-agent to recession may have been aimed primarily at making it easier for the business man and the home builder to borrow. But the huge role of consumer in the economy and the sizable part that credit plays in today's family budgets throws a spotlight on consumer loans.

### To Be Closely Watched

Their trend will be watched closely in the next two months by those charting the business cycle.

Tight money for months appeared to have little effect on the steady upward climb of total consumer debt. Only contraction of the repayment period did much to brake it.

"The average purchaser pays little attention to the amount of the interest charge involved in his installment loan," says the head of one of the largest finance companies. "What he looks at is the size of the monthly payment in relation to his paycheck."

But tight money caught up with the finance companies. They have to borrow funds needed to carry your time purchases. As the supply of these available funds shrank and the interest costs climbed steadily, finance companies raised the charges for the funds they in effect lend to the car dealer or the appliance retailer to pay the manufacturer while carrying on-the-cuff customers.

### Cut By \$368 Million

In January consumers cut their outstanding installment debt by \$368 million dollars. Part of this

was seasonal, part the shrinking of many incomes, but part could have been reaction to the higher costs they had to take on during the final days of tight money.

Finance companies are borrowing money much more cheaply these days. They have little trouble finding all they need.

The supply is rising from a number of sources: 1. The negative one that business is borrowing less and thus leaving more for others; 2. The added funds the federal reserve board is letting the banks have to lend; 3. The rise in savings totals.

The National Assn. of Mutual Savings Banks says deposits in the 529 banks increased 233 million dollars during January to reach a record 32 billion.

## County Gets \$157,714 In Utility Tax Funds

LISBON — A total of \$157,714.56 has been received from the state in utility tax funds by County Auditor I. J. Vorndran for distribution to six county divisions.

Of the total, \$49,393.38 will be earmarked for county relief; \$3,900, disabled relief; \$52,403.74, East Liverpool; \$24,584.50, Salem; \$24,700, Wellsville; and \$2,731.94, East Palestine.

The total was divided on the same basis as last year's figure which amounted to \$138,813.30. This year's amount is \$18,901.26 more than was received in 1957.

## With The Patients

Clyde Brown of 760 W. Wilson St. has returned home from St. Vincent's Hospital in Cleveland.

Mrs. Elden R. Groves of the Washingtonville Road is convalescing after heart surgery at the Cleveland Clinic Hospital. Her condition is good.

Appellate Court returned the case to Common Pleas Court for a new trial and the state appealed from that decision. The Supreme Court refused to consider the state's appeal.

Bundy, of Zanesville, was found guilty without recommendation of mercy. His execution was originally set for Nov. 8, but it was postponed pending outcome of litigation.

Also charged in the slayings was Russell McCoy, 22, of Zanesville.

Bundy asserted McCoy implicated him to "get even" because Bundy had said McCoy committed a murder in Zanesville.

McCoy was charged with first degree murder in the double slaying of his sister, Mrs. Louise See, and her husband Floyd in their home near Zanesville. Officials said McCoy admitted those slayings and was sent to Lima State Hospital for observation.

In another criminal case, the court dismissed the appeal of Kenneth J. Orth from his conviction for the \$1,809 robbery of the G. and G. Cafe in Lima, Dec. 10, 1954.

During the robbery by three men John Mooney was killed. Orth was indicted on charges of murder and armed robbery. He was found innocent on the murder charge but later was tried and convicted on the robbery charge and sent to Ohio Penitentiary. He claimed double jeopardy; that is, being tried twice for the same offense.

press nor implied authority to close or vacate township roads. The county commissioners must do it, the judges said.

A case by the Underground Parking Commission to test the constitutionality of a proposed bond issue to finance construction of a parking lot under the Statehouse grounds in Columbus was refused by the Supreme Court.

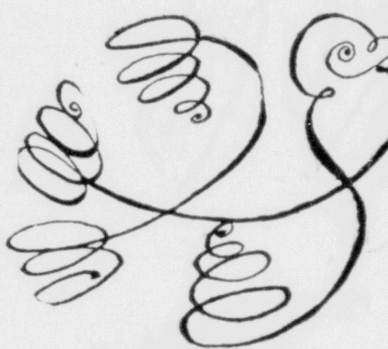

The commission asked the court for an order requiring Secretary-Treasurer Arvin J. Alexander to publish a notice for sale of five million dollars worth of bonds, but the high court said the commission should appoint a secretary-treasurer who will publish the notice.

Alexander had refused to sign in a prearranged plan to provide the test, similar to the course taken by the Ohio Turnpike Commission to win court-tested validity of its bonds.

In still another case, the high court held that highly complicated automatic carbonated beverage and hot coffee dispensing machines are manufacturing processes and taxable at only 50 per cent of the value.

The Canteen Co. and Miami Valley Canteen Co. of Chicago had appealed a tax commissioner's assessments holding the machines are merchandising machine and taxable at 70 per cent of their value.

# Cadillac

## It's an Easy Step from Dreaming to Driving!

Here he is at last—just a few miles out on his maiden journey—with his hands on the wheel and his head in the clouds. It's his!

And, yet, truth to tell, he does have one regret. For he knows that he needn't have waited *this* long, had he but realized what an easy step it is from dreaming of a Cadillac to driving in a Cadillac.

Like a great many motorists, for instance, he was not aware that a Cadillac—in view of its obvious virtues—could be so modest in price.

Nor did he appreciate, until the facts were presented, how economical a Cadillac is to maintain or

how wonderfully it holds its value over the years.

And little did he suspect how accommodating his dealer would be in welcoming him to membership in the great and distinguished family of Cadillac owners.

So, if you have your heart set on a Cadillac, you should hesitate no longer to investigate this happy set of circumstances.

In fact, why not visit your dealer today? He will be happy to help you select your favorite Cadillac model with your favorite Fleetwood interior—be it the luxurious Sixty-Two Coupe or the magnificent Eldorado Brougham.

## Orderly Procedure on SUB in Ohio

Gov. O'Neill sees no reason why the SUB case cannot clear the Court of Appeals and the Ohio Supreme Court before the summer recess.

If it came to a showdown between a recess and a ruling, some Ohioans would find it hard to see any reason why the judicial branch shouldn't stay on the job until the case had been settled.

There is no justification for anyone to believe or say in the meantime that it could be settled by some other procedure that might be shorter. The only conceivable way to settle it is in the one way that will wrap it up properly — by a Supreme Court ruling.

It would have had to be settled that way under any other set of circumstances. A fundamental issue is opened in the argument over supplemental unemployment benefits — the kind that courts exist to settle.

If these benefits become payable to Ohioans without interfering with their rights to unemployment compensation, about a fourth

of the state's workers, in industries noted for mass unemployment, would be given an advantage over all other Ohio workers covered by the Unemployment Compensation Act.

The ultimate effect of this on the existing law and the relationship between the law and Ohio employers would be far-reaching. SUB cannot be regarded as an isolated advantage which belongs to workers who have won it in certain industries. If these workers are entitled to supplemental benefits in Ohio, all other Ohio workers have a right to whatever additional help they can get while they are collecting unemployment compensation.

If higher courts uphold the favorable ruling by the Mahoning County Common Pleas Court, there will need to be a radical overhauling of the Ohio Unemployment Compensation Act and the procedures of the Bureau of Unemployment Compensation.

As Gov. O'Neill has pointed out, the judicial review should be thorough and when it is finished it should be final. There is too much at stake to leave any loose ends.

## Geared For Expansion

Reports of utility officials at the public meeting sponsored by the Salem Area Development Council in the Memorial Building Tuesday night present a rosy picture of the city's expansion potential.

Particularly gratifying were the statements by Aubrey Hayes, city utilities superintendent, who declared that Salem's water and sewage facilities could be enlarged at nominal costs to accommodate a vastly increased demands of the public and industry.

The citizens of Salem have expended great sums of money to provide modern water and sewage facilities, and it is reassuring to know that the utility plants were designed in such a way as to permit expansion without heavy financial burdens.

Representatives of natural gas, power and telephone companies left no doubts in their listeners' minds that their companies would be able to gear their services to the further development of this area.

The utilities factor, taken into consideration with other obvious advantages presented by the city, such as strategic location, excellent schools, transportation facilities and hospitals, among others, should provide an attractive inducement to new industries to locate here.

An Indiana drugstore clerk broke an arm when he fainted and fell. A customer must have waled in and asked for drugs.

Too many pedestrians stand up for their rights right in the middle of the street.

## Once Over

A poll shows drinking in America is down 55 per cent in the past decade, with women accounting for the greater part of the switch to "Make mine tomato juice." Only half as many gals drink liquor, the pollsters report but this could be partly due to fact they used so much fruit and ice in a glass it is hard to be sure.

Men are drinking almost as much but the drinks are being made so much smaller, weaker and costlier that consumption is less effective.

A man has to drink oftener to get the same lift he used to get by an infrequent snifter. Once liquor made him want to join a quartet. Today it makes him want to join a Senate inquiry into the high cost of frivolity and the disappearance of the free lunch.

**DRINKING HAS** become less pleasant. The old-time bartender, who was a master of his trade, regarded it as a profession and used the right ingredients in proper proportions, is hard to find. The saloon-keeper who knew his business, was not a fugitive from a junkyard and went all-out to hold his trade is rare.

The two-for-a-quarter cocktail is a distant memory but when we were a cub reporter back home the most indignant editorial of the year was written when high-balls went up to 15 cents straight.

The present generation thinks stories of the free lunch are fantastic falsehoods. But in every cafe of yesterday there was more food given away with a glass of beer than is served at many elaborate dinners today.

For the past two decades a cafe keeper who dished out a few salted peanuts and a pretzel during the rush hour has been considered big hearted.

A man has to have money, determination and extreme self control to drink these days. It used to take nothing but a thirst. College men and students are swigging a little more, the poll shows. This may explain the low crop of scientists and mathematicians. And the high crop of comedians. P.S.—Are the poll-takers drinking as much as they used to?

## Two Birds With One Stone

## Democrats Grab Legislative Ball

By PETER EDSON

"We are heading into another do-nothing session of Congress," says one Republican leader, off the record. "I have never seen politics being played harder or worse," says another.

Principal complaint of the Republicans is that with the Democrats in control of all congressional committees, the minority can't find out from the majority what the year's legislative program will be.

Two months of the present session of Congress are now down the drain. There are only four or five months to go if the Congress is to adjourn early for fall election-eering.

So far fewer than 20 public laws have been passed by Congress and signed by President Eisenhower.

They cover principally three supplemental appropriation bills, five technical tax law amendments and such things as renaming a couple of dams, authorization for the President to issue an Oregon statehood centennial proclamation and approval for a F. Myer, Va., monument to commemorate the first

airplane flight on an Army installation.

**PRESIDENT EISENHOWER'S** legislative program of nearly 100 specific recommendations has been found almost completely lost sight of.

These recommendations were contained in the President's state of the union, budget, economic, education, farm, labor, foreign trade, foreign aid and other special messages.

Congress is now pursuing a completely independent course and taking its time in shaping the program it will enact this year.

Only one clue has been given so far on what the principal items on this Democratic program will be. At the 1100-a-plate Democratic dinner in Washington, Senate Majority Leader Johnson said that Congress would give priority.

Johnson's list was largely overlooked because ex-President Truman was principal speaker at this affair. Harry's polite remarks made livelier listening and more memorable reading.

Senator Johnson's 10-point pro-

gram wasn't specific, either. He just mentioned the fields in which there would be action, without saying what the legislation would contain.

**PRINCIPAL REASON** for this was that congressional committees are still holding hearings on most of these subjects. On some they haven't even started. Johnson didn't want to give the impression he was dictating to Congress on what laws to write.

But this was his list, with brief, informed comments added to indicate the scope of what may eventually come out.

1. Housing—Senator Sparkman (D-Ala.) has already introduced this first bill, going way beyond administration proposals.

2. Education—It will probably include something for primary, secondary, college and university training and facilities.

3. Agriculture—It will be a congressional farm bill, ignoring many Benson recommendations, even if the President vetoes it.

4. Labor—Protection of workers against racketeers.

5. Credit - Relief — Particularly help for small business.

6. PUBLIC WORKS—Make sure there is an adequate shelf of fully planned projects ready for instant starts to curb recession.

7. Conservation—More starts on reclamation projects.

8. Foreign Aid and Trade—"Constructive action." This probably means a one-or two-year limited extension.

9. Defense—Strengthening the armed forces with some limited reorganization in the Pentagon possible.

10. Outer Space —Basic legislation to insure that the United States will have first place in future developments.

Senator Johnson deliberately left out taxation out if his list because tax legislation must always be initiated in the House of Representatives.

The principal importance of the Johnson list is that it indicates the Democrats will try to enact a program which they can present to the country in November as strictly their own. Any resemblance to White House recommendations will be purely coincidental.

## Doubtful Remedies

By DAVID LAW NCE

### Proposed Economic Aids May Not Be Effective

It is important to put the unemployment figures in perspective. Thus, while the actual number now out of work is as large as in 1941, it was then 10 per cent of the total labor force today. This latter percentage figure is the same as it was in 1949. During the Truman administration, just prior to the Korean war.

David Lawrence

The truly significant figure on unemployment is not the approximately 5,300,000 just announced by the U.S. Department of Labor, but the amount of the increase over 1956, which in many respects was a normal year. For there were 2,800,000 unemployed in March 1956, and these are the people who normally "float" from job to job or are temporarily idle or who work when the spirit moves them.

The net increase above the 1956 "float" is about 2,400,000. Where are these people located? How would more defense contracts allocated to a full-employment area do any good in other sections of the country where factories are shut down? People just don't give up their homes and nearness to relatives and move to other cities and towns to get new jobs. How could money in the pockets of those already working, do anything for those who are out of jobs and are not paying any taxes at all?

**THESE ARE** the searching questions that must be asked when every one of the proposed remedies of an anti-recession nature is examined.

For the fact is that unemployment is highest in the automobile centers and in the cities and towns where machinery and plant equipment are customarily manufactured. The Department of Labor itself announces that the increase in automobiles, aircraft, metals, and machinery plants.

The latest government figures show an estimated drop of 13 per cent in the amount of business to be done in building new plants and equipment in 1958 as compared with last year. This is a sizable reduction.

One plausible answer to the situation is that, if people would begin to buy autos again, it would help the heavy-goods industries. But this is related to the inventory or accumulated surplus of cars already in dealers' hands. Sooner or later this backlog of cars will be considerably reduced by an increase in sales but it takes time for that to happen.

It is argued that a tax cut will induce more buying. But experience in past recessions does not bear that out. Thus, in 1948 there was a tax cut but it did not prevent the 1949 recession.

A tax cut could result in

more purchases of groceries and what are called consumer items but, unless public confidence in the employment situation as a whole is restored, the tax-cut remedy will not be immediately effective.

**THIS IS** but another way of saying that, when any tax-reduction plan is voted by Congress, it must be of the kind that will persuade the economists generally and businessmen as a whole that a healthy step has been taken.

If there were an across-the-board cut, as advocated the other day by Vice President Nixon, it would do more to encourage businessmen to hire additional persons than if the tax cut were limited to those in the lower brackets. Any "redistribution of wealth" doctrine of the latter type looks well on the surface to some politicians but it failed to bring recovery in the 1930's and has never been looked upon as a sound device.

The importance of the "across the board" theory is that it gives businessmen an incentive to expand and to make purchases of new plant and equipment. There can be no doubt that psychological factors are the most important of all today. People are hesitant to buy things they need because of a fear of unemployment. While this is true of individuals, it is even more noticeable in businesses, which fear a continued lack of new orders and are drastically curtailing expenses.

The government can do a great deal to improve the psychology of the people as a whole and to encourage a buying mood.

**DESPITE ALL** the professions of concern among the politicians on Capitol Hill, there has been no program offered as yet which would this month or next month bring re-employment to the 2,400,000 unemployed above the normal "float."

Authorizing more public works is helpful to a certain extent but it takes time to draw plans, get bids and allocate contracts. Much more important, for instance, is what the government itself is doing right now in buying automobiles and trucks it didn't purchase when the so-called "economy" wave was sweeping the Defense Department and other governmental departments during the year 1957.

A recovery program is bound to be developed by the President and Congress as more and more unpleasant news breaks on the economic front in the next few weeks. The unemployment figure could go to six million without being as high in proportion as the 10 per cent of the total labor force which was out of work in 1941.

The most important step of all is to convince people generally that a recovery is inevitable and that it is a matter of months and not years. Such a sentiment may be fully crystallized before autumn comes.

## The Guessing Game

By JAMES MARLOW

**WASHINGTON** — The economy may be saved or wrecked by the guessing game now going on: Is it better to start a huge federal spending program to fight the recession or wait in the hope it will go away?

The antirecession arguments focus on two main methods: a tax cut or big and new federal spending. This is a good time to ask:

What's the difference—in principle — between big government spending or a big tax cut to overcome the depression? There's no basic difference. They'd both cost the government money. One might work faster than the other.

Both the Eisenhower administration and the Democratic leadership in Congress are cautious about a tax cut now. Eisenhower full of optimism the economy will take a natural upswing, is full of caution in all directions.

He shows no eagerness for a big, antirecession spending program, although he has urged speeding up of projects already approved by Congress.

The Democrats in Congress talk of a 10-point program to stimulate business and employment. It includes the kind of thing Eisenhower talks about—a speedup in programs already authorized, but also new construction and, if necessary, a modern version of the old WPA of depression days.

Not all members of Congress are as hesitant about a tax cut as Eisenhower and the Democratic leaders. For instance, Sen. Douglas (D-Ill) wants a tax cut now of around \$5,200,000,000.

The Eisenhower administration—despite the dim view the Presi-

dent previously took of it — is showing increasing signs of thinking of a tax cut. Vice President Nixon this week urged it—unless the economy improves soon.

Tuesday Eisenhower put off any immediate decision on the tax cut idea, but he's going to start discussing it with top Republicans.

On March 8 Eisenhower made this statement: "... The proper relation of government to the growth and vigor of (the American) economy must necessarily be to stimulate private production and employment, not to substitute public spending for private spending."

And he derided the Democrats' "pump-priming schemes." But most of the steps he's urged—in speedup of authorized programs or the spending of new money—are essentially pump-priming steps.

In one sense, at least, a tax cut also would amount to public spending.

Government spending programs hand out government dollars. But a tax cut would just as truly be handing out government money by letting people keep their dollars which otherwise would have gone to the government.

A five-billion-dollar spending program or a five-billion-dollar tax cut would cost the government exactly the same.

There is this difference in effect: a tax cut would put money faster into the hands of people to spend on things they want and thus create jobs for people to make the things they want. A big federal spending program wouldn't affect everybody and no doubt would take longer to boost the economy.

## Coal Trucker Fined \$595 By Mayor Calvin

COLUMBIANA — A coal trucker running 19,000 pounds overloaded on a reduced load limit highway was fined \$595 at a hearing Tuesday in Mayor's Court.

Arrested on State Route 517, the trucker was identified as Francis H. Snyder of Youngstown. He was cited by the state highway patrol.

Another patrol case was that of Arthur Sellers of New Springfield, who was charged with driving without lights. He was fined \$25 by Mayor E. L. Calvin.

In a village case, Ruth Anna Kleist was fined \$2 after pleading guilty to violation of a town ordinance prohibiting untended outdoor fires.

## Air Force Apologizes For Bombing

FLORENCE, S.C. (AP)—The Air Force has apologized to this baccalaureate community of 30,000 for the accidental dropping of an unarmored atomic bomb.

The atomic portion of the bomb did not go off, but its TNT trigger exploded, blowing up a house and digging a crater 40 feet wide.

In Washington, Secretary of Defense McElroy confirmed that the area was uncontaminated by radioactivity.

Air Force crews were at work removing scars left by the explosion when the bomb accidentally fell from a B47.

Mayor David McLeod at City Hall got an apology for the incident from Maj. Gen. Charles B. Dougher of Hunter AFB, Ga., the bomber's base.

High-ranking officers and claims personnel toured the two-mile-square area surrounding the impact point near the shattered Walter Gregg house five miles east of here. Gregg, his wife, their three children and a niece were injured, none seriously.

Air Force authorities explained the bomb did not set off a nuclear explosion because it lacked the complete triggering device. The accidental bomb release was attributed to malfunctioning equipment.

McElroy said a "high level" investigation has been ordered into the "wider implications of this unfortunate occurrence. . . ." He, too, expressed deep regret to the six injured.

The Hunter base identified three veteran captains as crew members of the bomber — Capt. Earl E. Koehler, about 36, Mount Carmel, Ill.; Capt. Charles S. Woodruff, 35, Van Wert, Ohio; and Capt. Bruce M. Kulka, 29, New York City.

In London, the incident quickened concern in Parliament over possible nuclear devastation by accident from American-controlled weapons.

In Washington, Department of Defense attorneys said Florence householders who suffered minor injury or damage probably can collect damage claims from the Air Force within a short time.

But those submitting claims for more than \$1,000 probably will have to wait six to eight months for Congress to approve payments.

The Tennessee River system flows through seven states: Alabama, Georgia, Kentucky, Mississippi, North Carolina, Tennessee and Virginia.

## Program Is Held By Guilford Grange

Master James Wernet presided at the Saturday night meeting of Guilford Grange.

The home economics committee made a donation to the county 4-H clubs, and the subordinate grange

made a contribution to the juvenile grange.

Midway Grange will bring the traveling flag to Guilford Grange March 22. Guilford will take it to Butler Grange March 26.

Plans were announced for the \$50,000 sewing contest sponsored by the National Grange. Mrs.

James Rhodes, chairman of the home economics committee reported that adults, youths and juniors are eligible to enter the contest which closes April 30.

Leland Faloon told of his trip to Cuba, Puerto Rico and South America.

**REPORT 5-ALARM FIRE**  
CLEVELAND (AP)—Damage was estimated at \$225,000 Wednesday night as a five-alarm fire destroyed a building of the Broadway Supply Co. Cause was not determined. The estimate was made by Charles Sugerman, one of four co-owners.

# Guarding Your Health

By Dr. EDWIN P. JORDAN

## New Hope For Lepers

About a year ago the magazine called World Health, published by the World Health Organization, presented a short article entitled "New Hope For Lepers."

Nobody really knows, this article pointed out, how many victims of leprosy there are in the world. In 1952 it was estimated at between two and seven million, but this was revised in 1956 to 10 or 11 million.

THESE FIGURES do not mean that there has been an alarming increase in the disease. Rather, it is a reflection of the fact that treatment is now so successful that many victims who formerly were terrified and hid their affliction now are coming in for medical aid.

Leprosy has never been a dangerous problem in North America. There are probably not more than 5,000 residents of the United States who have this disease, and a large number of these have it in such a mild form that it would not be noticed.

RECENTLY Z. M. has written to ask about the contagiousness of leprosy and the chances for recovery.

Actually, the disease is only mildly contagious. The blind fear of the Middle Ages was certainly not justified, and it is unfortunate that it has persisted so long in this enlightened age.

It is true that isolation from others after diagnosis has been made is often recommended, but I believe the States of New York and Vermont do not even require that the disease be reported, and Massachusetts does not have any restrictions concerning isolation of patients.

From the standpoint of treatment the outlook is now greatly improved. A group of drugs technically known as sulfones have great value.

I SHOULD LIKE to say something about the excellent hospital for victims of leprosy at Carville, Louisiana. Not only has the medical work there been of extraordinary high caliber, but the patients have contributed greatly to the understanding of the disease. They publish a fine magazine called "The Star" and hold dances and baseball games.

On previous occasions I have received correspondence requesting me to use the name Hansen's dis-

**YOUNG MRS. ROSEN** — Mrs. Marian S. Rosen, 24, poses by the U.S. Supreme Court Building in Washington after she was admitted to practice before the nation's highest tribunal. From Port Arthur, Mrs. Rosen is one of the youngest attorneys from Texas ever admitted to the practice. She was sponsored by Rep. Jack Brooks (D-Tex.).

ease instead of leprosy. The reason for this request is that the word leprosy is so feared. However, it would not be possible for me to discuss Hansen's disease without mentioning leprosy since few readers would know what I was talking about.

## Thinking It Over-- For Lent

By Robert L. Dieffenbacher, D.D.  
(Written for NEA Service)

The meter which measures our electricity, our gas or our water cannot be cheated if it is in working order. If the meter is misread during one period, the reading will be adjusted the next time. The meter measures totals, and over a period of time it balances. One cannot cheat a functioning meter even if he reads it himself. God measures our total lives. He may leave our activities up to us from time to time, but over our life span there is an accurate measure. We cannot cheat God by sinning and trying to hide our waywardness.

The only way to keep our lives as they must be is to confess our sins to God with every mistake. If we do this we shall find the total measure acceptable to God.

## Scout Troop 13 Buys New Equipment, Books

LEETONIA — The executive committee of Troop 13 Boy Scouts of America, met at the Eldon Holt residence recently with Ernest Rutsky presiding. The committee approved the purchase of ten overnight tents, two axes, three shovels and fifty merit badge books which will be added to the scouts library.

On March 29, the Scouts will journey to the Y.M.C.A. in Akron for an evening of swimming. Tentative dates for the forthcoming Board of Review and Court of Honor were set for April 14 and 28, respectively.

The Ladies Auxiliary of the Eagles met Monday evening with 21 members and one guest from East Liverpool present.

A card party was planned for Monday. The public is invited. The Auxiliary will celebrate their 7th anniversary by going out to dinner March 27. Members are

## 160 St. Paul Girl Scouts Have Program

"Go To Church Sunday" was observed by 160 Girl Scouts and their leaders Sunday morning at St. Paul's Church. The service was followed by a communion breakfast and Juliette Low program.

Senior, Intermediate and Brownie Scouts participated in the flag procession. Rosemary Clotti of Senior Troop 39 carried the American flag and Barbara Ray and Susan Fisher served as color guards.

Intermediates were represented by Patricia Horning of Troop 44, flag bearer; and guards, Christine Krauss of Troop 2 and Marsha Elrod of Troop 5.

Brownie flag bearer was Mary Louise Bilby of Troop 21, and Jane Shivers of Troop 14 and Cathy Roush of Troop 38 served as guards.

The Juliette Low program, which began immediately after the breakfast, was opened with a flag ceremony conducted by members of Brownie Troop 38, Cathy DeRozas and Mary Jane Yanek were flag bearers. Lola Santini and Carol Paster served as color guards.

The following Juliette Low girls and their alternates presented their troops' Juliette Low banks: Troop 38, Patty Steel, Mary Ann Jackson; Troop 21, Theresa DeRozas, Debbie Coy; Troop 14, Colen Mercier, Delores Saper.

Brownies of Troop 38 presented a skit, "Brownies From Other Countries." Troop 21 sang "The Brownie Smile Song," and Troop 14 sang "Tipperary." Miss Jeanne Bricker, leader of Senior Troop 1, led in group singing.

Other leaders are: Intermediates, Troop 2, Mrs. Robert Conroy, Mrs. Lloyd Scott; Troop 5, Mrs. Arthur Santini, Mrs. Michael Yanek; Troop 44, Mrs. Myron Washill, Mrs. Harold Horstman; Troop 39, Mrs. Eugene Hergenrother, Miss Patricia O'Block; Brownies, Troop 14, Mrs. Joseph Lamonia, Mrs. Julius Julian; Troop 21, Mrs. Howard Coy; Troop 38, Mrs. Francis Hornin and Mrs. John Fithian.

The Rev. Fr. J. Richard Gaffney and the Rev. Fr. William J. Witt were guests at the event.

## Saxbe Says Trustees Can Abolish Commission

COLUMBUS, Ohio (AP) — Atty. Gen. William Saxbe told the Wayne County prosecutor, James K. Leedy, Wednesday that township trustees have practically the same power to abolish a zoning commission as they have to create one.

The power to abolish such a commission develops if the commission's zoning plan is rejected by voters, the ruling stated.

## Red Cross Blood Bank's Value Known to This Man

Editor's Note: This is another of the series of articles describing the varied activities of the Salem Red Cross chapter.

The young man looked at the clock in the hospital waiting room. It was 2:30 a.m. — not the best hour for a long distance call to the Salem Red Cross. But the people at the hospital told him it was his only hope.

Soon the operator reached the Salem Red Cross worker at her home, nearly 1,000 miles from the hospital where the young man's wife and daughter lay fighting for their lives after a tragic automobile accident.

HE HAD ESCAPED without serious injury, but he told the Red Cross representative, his family needed blood desperately. The hospital had used up its supply of blood and could get more only if the young man's home town Red Cross authorized the transfer of more blood from the nearest regional Blood Bank.

"Can we get it," the young man asked desperately? "They need it right away and I understand the Blood Bank closest to this hospital is 60 miles away!"

"Yes," the Red Cross worker assured him. "I'll call the Cleveland regional office right away and have them authorize the Blood Bank closest to you to supply as much blood as you need. Then we will replace the blood from our Blood Bank in the morning."

"Don't worry. The Red Cross will start the blood on the way to your hospital as soon as the phone calls are made. Good luck."

SEVERAL WEEKS LATER the young man appeared in the Salem Red Cross office.

"Thank you so much for authorizing the transfer of blood," he said. "It saved the lives of my wife and child."

He took a hospital bill from his pocket.

"But look," the young man said. "The hospital charged me \$25 a unit for the blood. They needed 12 units. I'll never be able to pay for it all."

The Red Cross worker made a quick check of her books.

"I see that this hospital where your family received emergency treatment doesn't belong to the Red Cross Blood Bank," she said.

"But since you live in Leetonia, which is serviced by the Northern Columbiana County Red Cross Blood Bank, you won't have to pay anything. We will notify the hospital, and since the blood your family used has been replaced."

ed from the Red Cross Blood Bank your bill, except for transfusion charges, will be cancelled."

AS THE YOUNG MAN LEFT the Salem Red Cross office he once again reminded himself how fortunate he and his family were to live in an area serviced by a Red Cross Blood Bank.

He also reminded himself to give as large a contribution as he could to the Red Cross drive for funds, now in its second week.

That way, he decided, was the best way to assure others of benefiting, as he had, from the many services of Red Cross.

NOTE: In the Red Cross drive this year fails to make its fund goal the first thing to be dropped locally will be this area's participation in the Red Cross Blood Bank, which assures area residents of free blood.

## Dems Prod Administration For Early Tax Cut Decision

WASHINGTON (AP) — Congressional Democrats prodded the Eisenhower administration today for an early decision on possible antirecession tax cuts.

The administration, meanwhile, waited to assess the results of stepped-up spending programs it has ordered and recommended before deciding whether a tax cut is needed to spur production and create jobs.

Senate Democratic Leader Lyndon B. Johnson of Texas and his assistant Sen. Mansfield of Montana urged action to make it clear whether there are going to be tax reductions and what kind.

sent high school building would provide for three science rooms; a commercial suite of two rooms; centers for mathematics, English and social studies; a diversified occupations room with a related study center; a larger library room with a reading center; work room and stack area; a corrective health room; and additional office space.

Rich recommended that definite provision for study time be provided for the seventh and eighth grades. He agreed with Supt. Hayes' suggestion in the development of the academic or college preparatory course in English to include specific emphasis on grammar, composition, speaking, listening and literature. The history and sciences courses are satisfactory.

Changes in the mathematics courses should be made only after careful study of the probable effect they might have on students planning to enter the engineering field.

**RICH RECOMMENDED** additional instructional materials for the elementary levels in social studies and science; at least half sets of elementary dictionaries in grades four through eight; and a modern set of encyclopedias in each of these grades. On the high school level, literature books for all pupils in grades nine through 12, additional apparatus for a 11 sciences, and several basic business machines for the commercial department, were recommended.

Rich highly commended the board of education, the administration, the teachers, and the community for the improvements made in the physical facilities, the strengthening of the educational program and in the improvement in the quality of instruction.

The possibility of establishing a library area at the Washingtonville School by board members was discussed. A section of the school auditorium would be used for library facilities, and the other section for a slow learning class. The kindergarten which meets in the auditorium would be transferred to the basement.

Sealed bids will be received at the office of the clerk until 8 p.m. April 26 for the dismantling of the old South Side Building. Materials in the interior of the school are being removed by the custodians. Disposition of the desks will be held March 22, and residents desiring them for sentimental reasons or otherwise, may purchase them for a nominal fee at that time.

**BOARD MEMBERS** approved a request from the Leetonia Mennonite Church to use the high school building from June 9 to June 20 for summer Bible school.

Lester Saftred of Garfield Road was hired as a part-time janitor at \$36 per week.

Supt. Hayes reported on the Business Education Cooperative Training program to be presented to senior girls during the coming year.

This program is designed to provide co-operative training on a half-day basis for senior girls. The other half day is divided between academic subjects and subjects related to work being done on-the-job.

To date 16 girls have expressed a desire to participate in such a program. The purpose of BECT for in-school youth is to enable the student to secure initial employment in the field of business, and at the same time develop acceptable attitudes in order that she may become an asset to her school, job and community.

**DR. GERALD REED** of Kent State University has been secured to conduct a teachers workshop March 27. A round table discussion will be held on "Teaching Techniques in the High School."

Plot maps for the landscaping of grounds at Orchard Hill school were distributed to the members. Methods of accepting bids from nurserymen were discussed.

Supt. Hayes expressed the desire that an accurate count of incoming students be made for next year, in an effort to prevent a shortage of classrooms after the opening of school.

It was unanimously agreed that special emphasis be placed on school bus safety. Plans will be made to instruct the older children on procedures for caring for the younger children in case of an emergency on the buses.

Board members present were President Dr. Paul Beaver, Dr. Paul Conrad, Dr. Guy Nicolette, Wayne Holloway, Jack Ripley and Clerk Dan Butch.

Colby Vincent, Pam Maruca, John Penezot, Don Keener, Richard Platt and Jim Edling served as color guards.

Gymnasium assistants were Buz Snyder, Joe DeCort, Dick Schnorenberg, Mark Starbuck, Dave Crammer, Bill Crawford and David Isaacs.

## Vanguard Still Being Dogged By Misfortune

CAPE CANAVERAL, Fla. (AP) — The Navy's Project Vanguard, grounded by repeated frustrations apparently floundered in serious difficulty today.

None of the officials in charge would comment. The Navy has lowered a strict curtain of secrecy over its space research program, dogged by misfortune.

There were definite indications a Vanguard satellite launching might be days or even weeks away.

Meanwhile, the rival Army Jupiter-C program, despite troubles of its own, pushed to the fore.

Secretary of the Army Wm. Brucker said in Washington that launching of a third Explorer satellite has been authorized.

The Navy called off its third attempt in a week to launch the Vanguard three-stage rocket with a grapefruit-size satellite in its nose.

It blamed technical difficulties which slowed the test beyond the time that liquid oxygen could be retained in the rocket without freezing the valves and other sensitive fittings.

Experts said it may prove that so much work is required to get the showpiece Vanguard back into condition that a launching may be out of prospect for possibly weeks.

The Army has five additional Jupiter-C rocket combinations which will be used to put up satellites.

The Army launched its first Explorer satellite successfully Jan. 31, using the four-stage Jupiter-C. Its second launching attempt, March 5, was unsuccessful.

### Cleveland Editor Succumbs at Age of 54

TUCSON, Ariz. (AP)—Franklin Alan Lewis, 54, sports editor of the Cleveland Press since 1939, died Wednesday of an apparent heart attack.

Lewis, who was born in Lafayette, Ind., began his newspaper career with the old Miami, Fla., tabloid in 1925.

He became sports editor of the Press in 1939. Before that he was sports editor of the Daytona Beach (Fla.) News-Journal and Cleveland radio station WGAR.

Lewis also wrote several popular songs and worked in musical comedies. He wrote "My Virginia Rose" in 1932, "My Baby's Coming Home" in 1933 and "Sweetest Hour of All" in 1935.

In 1949 Lewis published a book, "The Cleveland Indians."

## Wayne County Deputies Seek 3 Amish Boys

WOOSTER, Ohio (AP) — Sheriff's deputies today resume the search for three Amish boys, declared truant by a Wayne County court for not attending school beyond the eighth grade.

Meanwhile, parents of the three spent the night in the county jail, held in contempt of court until the boys are delivered to custody of the county.

Deputies failed to turn up the boys—Andy Hershberger, 15; his cousin, Sammy Hershberger, 14, and Jacob Slabaugh, 14 — after hunting until Wednesday night. They called unsuccessfully on several Amish families in the area.

The parents were jailed Wednesday following a Juvenile Court hearing before visiting Judge Don Young of Norwalk, who ruled the parents were in contempt. The hearing was marked by cries of religious persecution.

The parents, Mr. and Mrs. John P. Hershberger, Mr. and Mrs. Eli J. Hershberger, and Mr. and Mrs. Emmanuel Slabaugh, refused to surrender their sons when the judge ordered them to do so last month.

The parents are members of a conservative Amish sect which objects to sending its children to school beyond the eighth grade in belief the children will become too worldly and shun the stern tenets of family teachings. Ohio education laws, however, specify school attendance until the age of 16.

### Leopold

on officials termed a "model prisoner." He served as a guinea pig in wartime malaria experiments, established a correspondence school for convicts, reorganized the prison library and worked in the prison hospital.

Aided by an intellectual level far above that of a genius, he mastered more than a score of languages. He corresponded with many of the world's leading intellectuals.

On Feb. 20, the parole board in a split vote gave Leopold the freedom for which he unsuccessfully petitioned four times previously.

He had job offers from Florida, Honolulu, Chicago, New York, California and Puerto Rico. Each had to be investigated by parole authorities, thus delaying his release.

Leopold from the first favored an offer from the Church of the Brethren's mission hospital in Castaner, P.R. He was offered room and board and \$10 a month to work as a hospital technician. It was this job the board finally approved.

Despite the small salary, it is unlikely Leopold will suffer financial hardship. He will have a \$2,000 yearly income from a \$50,000 trust fund and a legacy from an aunt totaling between 10,000 and \$11,000.

In addition, it is expected he will receive royalties from a book he wrote about his prison life.

"Thousands of prisoners, especially long-term prisoners, look to me to vindicate the rehabilitation theory of imprisonment. I will do my best not to fail in that trust."

## Mt. Union Series To Feature Drama, Music, Letters, Art

Drama, music, art and letters will be featured during the 198 art series of Mount Union College from Sunday to March 26. All programs in the series will be open to the public.

Prof. William A. Rice, speaking on "African Sculpture" at 3:30 p.m. in the Crandall Art Studios, will open the series Sunday. Dr. Rice is head of the geology department at Mount Union.

"The Library, The Student, and Research" will be the title of Librarian Emeritus Robert E. Stauffer's lecture Tuesday at 8 p.m. in the library.

Continuing the series will be the student production of "The Flowering Peach" by Clifford Odets on March 20, 21, 22. Tickets for the play to be presented at 8:15 p.m. at Rodman Playhouse are \$1.

San Krebs of Washington, D.C., will speak at a 10 a.m. convocation March 21 at the Mount Union Theater. Title of his speech will be "Music in the Service of the Soviet State."

Dr. Paul Schwartz, composer-pianist and chairman of the music department at Kenyon College, will be presented with the Mount Union College Orchestra in a concert on March 22 at 8 p.m.

Abstract and surrealist films will be shown in the library March 24 at 8 p.m. Included will be "Images from Debussy," "Meshes of the Afternoon," and "Reflections No. 11."

The showing of the films will be followed on March 25 by Prof. Eric Johannessen of the Mount Union Art Department, who will talk on the art and letters of Van Gogh. This portion of the series will again take place in the Sebring Room of the library at 8 p.m.

A combined concert March 26, featuring the Canton Symphony Orchestra conducted by Louis Lane, the Mount Union College Choir, and Prof. Malcolm Brown, pianist, will conclude the series.

Included in the production will be the first performance of "Renascence Suite" composed and conducted by Prof. Paul Whear of Mount Union. Tickets for the concert, which will be presented at 8:30 p.m. in the Timken Auditorium, Canton, are \$2.50 and may be obtained through the alumni office of the college.

Throughout the entire series there will be a display of African Negro sculpture on exhibition in the Crandall Art Studios, and the drawing and graphic art of Ben Shahn on display in the College library.

# Cuyahoga Falls Registers 59-55 Triumph Over Wooster

## Columbus East Nips Latin 61-59

Mel Nowell Paces Tigers With 22 Points

COLUMBUS, Ohio (P)—Columbus East and Cuyahoga Falls sit back tonight and wait to see what high school teams they meet in the regional basketball finals at Berea and Kent.

Columbus East, paced by Mel Nowell's 22 points, edged Cleveland Cathedral Latin out of the state tournament Wednesday night 61-59. The Tigers, now 18-5, will meet the winner of tonight's Cleveland East Tech-Elyria battle Saturday for the right to advance to the state finals.

Latin last year was the No. 1 team in The Associated Press' final high school poll. They went to the finals but were downed by Kent Roosevelt 62-54.

Columbus East also isn't a newcomer to the select few. East won the state crown in 1951.

The other team to move one step closer the finals next week was Cuyahoga Falls, with a 59-55 victory over Wooster.

The scrappy Tigers used a 22-point outburst in the third quarter to overtake Wooster. During the first half the victors trailed by as much as 17 points.

Wooster's Bill Tracy led scoring with 22 points. Bill Knights had 21 for the winners.

Cuyahoga Falls will face the winner of tonight's Zanesville-Akron St. Vincent game in the regional finals at Kent Saturday.

Zanesville, ranked No. 3 behind Middletown and Cleveland East Tech, has won the state title twice, in 1926 and 1955.

Class A regional action gets under way tonight in Athens where Centralia (19-5) runs into Maysville, (formerly South Zanesville) with a 24-1 record.

## Billy Casper Collects New Orleans Title

NEW ORLEANS (P)—A putt that rolled "roughly 30 feet" gave Billy Casper victory over Ken Venturi in a sudden death playoff of the \$20,000 New Orleans Open golf title.

The pudgy Casper, who plays out of Apple Valley, Calif., dropped the putt on the second hole of the rain-plattered playoff Wednesday morning.

Casper and Venturi, a slim stylist from San Francisco, were tied at 278 at the end of 72 holes Tuesday. They were to have met in an 18-hole playoff, but an early morning downpour necessitated the sudden death.

The victory was worth \$2,800 to Casper, who won the Crosby Invitational in January and has been absent from the tournament trail in recent weeks because of flu.

Venturi, only three-time winner on the winter tour, collected \$1,900.

## Ray Narleski to Make 1st Start of Season

TUCSON, Ariz. (P)—Ray Narleski, the Cleveland Indians' ace relief pitcher who was shifted to a starting role last year, pitches against the Baltimore Orioles today in his first start of the season.

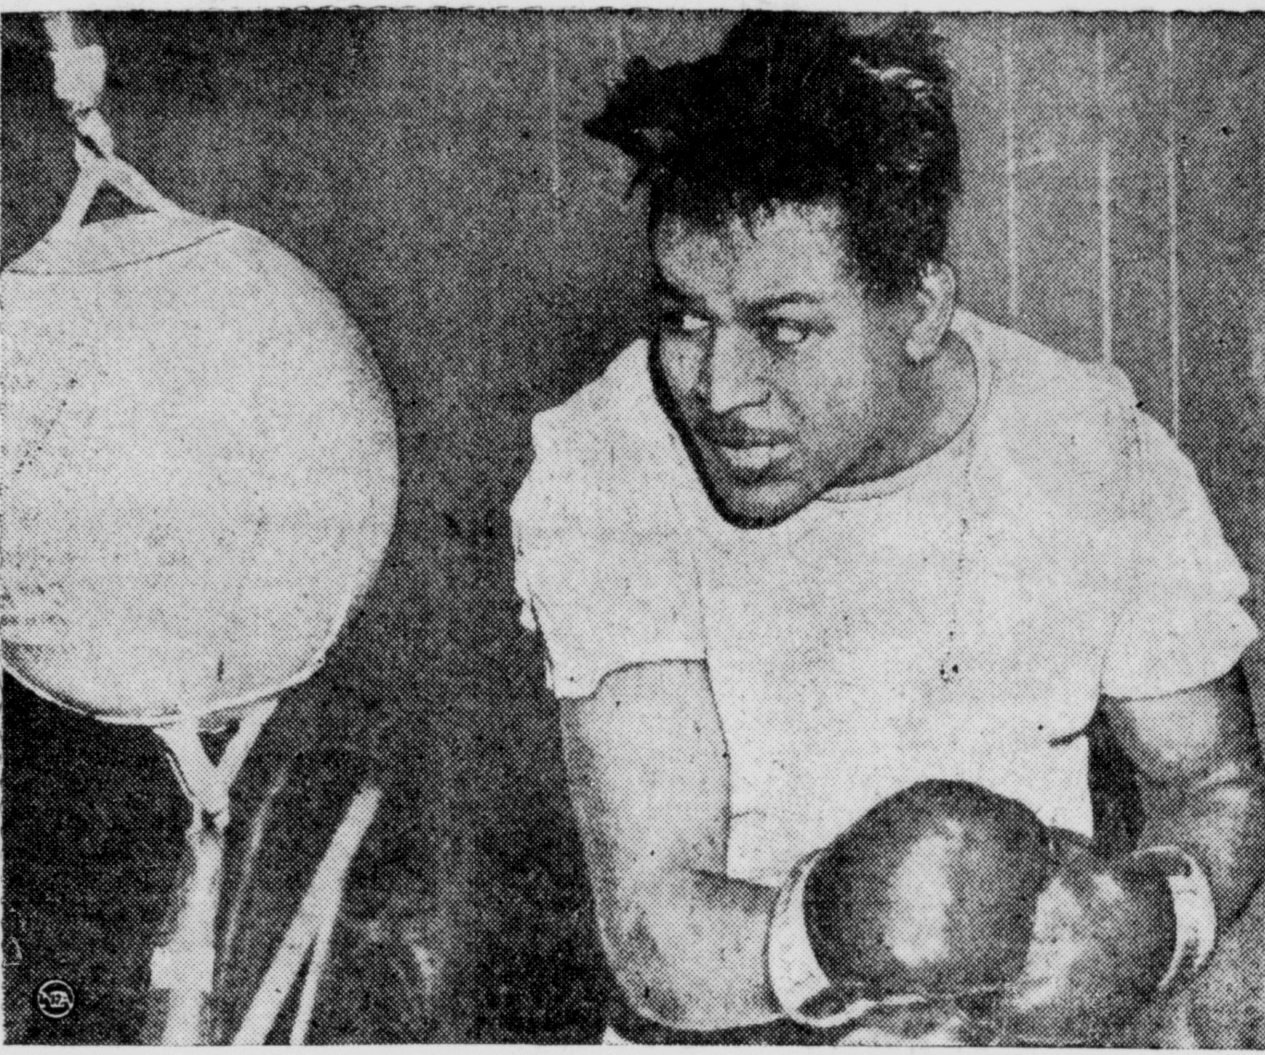

Following the game, the Indians will board a train for El Centro, Calif., where they meet the San Francisco Giants Friday in the first of a three-game series. The other games will be played in Los Angeles Saturday and Sunday.

Siunpaw Herb Score, who is nursing a sprained ankle, says he hopes to pitch Sunday. He was injured Friday when he slipped on the gymnasium floor of the YMCA, where he went for a workout after rain halted the Tribe's outdoor drill.

THERE'S NOTHING sweet about Sugar Ray Robinson when he puts his mind to throwing punches of this type. He's just dangerous, as this training camp workout shows.

## Sports Sketches

By GORDON ARNDT

The Middletown Middies have won 74 straight basketball games during the past three seasons, including 22 in a row this year. During this time their 6-9 1/2 center, Jerry Lucas, has scored the fantastic total of 2,366 points. This works out to an average of 31.9 a contest.

Middletown can win its third straight Class AA title and its eighth since 1944 by brushing aside four more tournament foes.

This won't be easy as in three of the cases the Middies could be up against a team with an unblemished record.

The Middies play Chillicothe (18-5) tomorrow night in a regional semi-final game at Cincinnati. Assuming they win, they most likely will play Cincinnati St. Xavier (23-0) in the finals Saturday night. St. Xavier plays Dayton Fairview (16-7) tomorrow evening.

THE TOURNAMENT picture in Columbus March 21 and 22 could very well include four undefeated teams. Middletown would have to defeat two of them to accomplish its goal of three straight Class AA titles.

This lineup from all aspects would include Middletown, Cleveland East Tech, Columbus North and Zanesville.

This brings to mind one important question. "Could Middletown win the title without Lucas?" This corner says no.

Lucas is averaging 32.6 points this season. The second high scorer for Middletown is 6-2 1/2 Tom Sizer who has netted 368 points for a 16.7 average. The other three starters are averaging under nine points a game.

Larry Emerick at 6-7 1/2 has scored 179 tallies while 6-4 1/2 Ben Roberts has garnered 167. The fifth man, 6-foot Charlie Fuller, has a pocketed but 112.

MIDDLETOWN'S THREE front line subs, 5-7 George Payne; 6-1 Jim Downing and 6-1 1/2 A. C. Mitchell have combined for only 167 points this year.

Some teams suffer little by the loss of one man, but it is evident here that Middletown would really be with its back to the wall without Lucas.

Jerry Nardiello, sports editor of the Middletown Journal, says the question is a difficult one to answer because without Lucas, coach Paul Walker would have to rearrange his attack and center it on another player.

There is no question that the Middies would win consistently without Lucas, but it is highly doubtful that they could cop their third straight title March 22 without him in the lineup.

IT SEEMS APPARENT that in order for an athlete to be named to an All-Star squad of any sort these days, he must be a tremendous scorer.

This fact is brought out in both an All-Ohio high school team and an All-American college squad recently named by INS.

Two of the players on the dream scholastic squad were Charlie Jones of Canton McKinley and Jerry Hallabrin of Mansfield. Jones averaged over 22 points a game while Hallabrin is in the 27-point category.

What is more reasonable is that Jones stands 6-4 while Hallabrin is but 5-6.

In college circles, two cagers listed were Wilt Chamberlain of Kansas and Don Hannon of Pitt. Chamberlain stands 7-foot and averaged over 30 points a game, while Hannon reaches only 5-8 1/2 but averaged just under 26 per tilt.

FROM THESE TWO examples, it would seem that a player's size has nothing to do with whether or not he becomes an "All-Star," so long as he can hit the hoop with uncanny regularity.

When it comes to naming an all-

star football team most circles name an offensive squad along with a defensive eleven. Of course, basketball and football are totally different sports, but I wonder where one would begin in naming an All-Ohio or All-American defensive basketball team?

Two former Salem High School cagers finished the season as the high scorers of their respective college teams.

Harry Baird tallied 312 points for Mt. Union in 19 games for a 16.4 average. He hit 43 per cent of his field goal tries and 71 per cent of his foul shots.

Baird was the leading point getter in nine of the contests played by the Purple Raiders.

GRABBING SIMILAR honors at Western Reserve was Dick Hunter. He produced 246 markers in 18 tilts for a 13.6 average. Even though he is only 5-10, Hunter was the Bobcats' third leading rebounder. He also was the game's high man on nine occasions.

Reserve coach Harry Adams says, "there is no limit to what Dick can do in the next two seasons."

Both he and Baird are chemistry majors.

Jack "Guber" Gottschling of Salem was the sixth leading Mt. Union scorer with 87 in 19 games. He made 45 per cent of his field goals and 68 per cent of his fouls.

Mt. Union's all-opponent team was composed of Willie Jones of American University of Washington, D.C., Bob Whaley of Akron U., Ace Gilchrist of Oberlin, Terry Deems of Wittenberg and Jim Cave of Maryland State at Frostburg.

F. Troy Cope III, son of Mr. and Mrs. F. Troy Cope Jr. of 666 S. Lincoln Ave., won a letter in swimming last season with Mercersburg Academy of Mercersburg, Pa.

## Tigers Downed By Redlegs 9-7

Trade Between Reds, Giants Is Rumored

By The Associated Press

A pair of home runs by a rookie Cincinnati catcher and a statement by San Francisco Manager Bill Rigney fanned rumors today that a trade was in the making between the Redlegs and Giants.

Rigney, at Phoenix, Ariz., said he was sending scout Tom Sheehan to Florida to look into some deals which simmered several weeks ago. Sheehan will be based at Tampa, Cincinnati's training camp.

Dutch Dotterer, a hard-hitting backstop up from Nashville of the Southern Assn., may help swing the deal. Dotterer slammed two home runs as the Redlegs downed the Detroit Tigers 9-7.

The Giants, admittedly weak behind the plate, have made offers for big Ed Bailey, the Redlegs' No. 1 receiver. They may be glad to settle for Smokey Burgess, the No. 2 man who would be the first stringer for several other big league clubs.

Burgess probably will be made available if Dotterer (.303 with 79 RBIs last year) continues his robust hitting.

In other exhibition games, the St. Louis Cards blanked the New York Yankees 6-0 the Chicago White Sox whipped the Pittsburgh Pirates 5-2 and the Los Angeles Dodgers nipped the Milwaukee Braves 4-3. The Cards-Yankees and White Sox-Pirates games were cut short by rain.

Dotterer's second home run in the ninth climaxed a four-run Cincinnati uprising that wiped out a 6-5 Detroit lead. Harvey Kuenn, Al Kaline and Bill Taylor homered for the Tigers.

Vinegar Bend Mizell and Bob Miller limited the Yanks to one hit—a single by rookie shortstop Fritz Brickell. Bob Turley was battered in a three-inning stint. Bobby Shantz was touched for two runs in two frames while Ryne Duren held St. Louis in the sixth when the rains came.

The White Sox batted around in against the Pirates, scoring all their runs. Pinch hitter Nelson Fox drove in two tallies and Tito Francona, Sherman Lollar and Don Prohovich had one RBI each.

Norm Larker's single scored Bob Lillis with two out in the ninth as the Dodgers picked up Hank Aaron and Ed Mathews homered for Milwaukee.

## Clippers Face Northwestern In Regional Tourney Friday

## Youngstown Wins 74-63 Over Teachers

KANSAS CITY (P)—Three unsucceded and generally overlooked entries battled their way into tonight's quarterfinal round of the National Intercollegiate (NAIA) basketball tournament.

The Georgetown (Ky.) college Tigers, who upset Pacific Lutheran 92-91 in overtime Wednesday night in the best game of the tournament thus far, Coe College of Cedar Rapids, Iowa, and Texas Southern of Houston, are the surprise teams.

Either Coe or Texas Southern will have to go tonight. They meet in the opening game.

Georgetown will have a rugged foe in 5th-seeded West Virginia Wesleyan in the night's final game.

The top-seeded Western Illinois Leathernecks, who had all sorts of trouble outlasting Pasadena (Calif.) College, 83-80, go up against Youngstown (Ohio) University in the second game.

Youngstown, seeded No. 8, overpowered Plattville (Wis.) Teachers, 74-63 in the second round.

Defending champion Tennessee State of Nashville, seeded No. 3, and East Texas State of Commerce, seeded No. 7, meet in tonight's third game.

Texas Southern gained the quarterfinals by beating Drury College of Springfield, Mo., 91-61, and Coe ran away from Western Montana 106-9.

Tennessee State's blistering speed burned up Anderson (Ind.) College 77-56. Methodical East Texas started slow and finished fast to oust Northern State of Aberdeen, S.D., 63-57.

Redlegs Register 9-7 Victory Over Tigers

FORT MYERS, Fla. (P)—A 9-7 victory over Detroit behind them, Cincinnati Redlegs moved here from Lakeland today to meet Pittsburgh in another round of the grapefruit season.

One thing loomed well in the records of the Tiger game—two homers, good for three RBIs by Dutch Dotterer, rookie catcher who is trying to stick in the big time for a third time since he entered organized baseball in 1950.

Seven pitchers were used in Wednesday's game, four by the Tigers, as both clubs collected 30 hits. Of these, the Redlegs accounted for 16.

## Opponents Have Won 25 Tilts In Row

The Huskies have bowled over 25 straight opponents this season. Northwestern, coached by Dan Baker, earned the right to meet Rich Berryman's Clippers by defeating Vienna 69-46 in one of the finals of the Canton Class A district tourney last week. In the meantime, the Columbiana aggregation was rallying in the second half to subdue a good Boston Twp. team 71-53.

In the first game tomorrow evening, Dillonvale (16-9) will meet Hartford (25-1).

Th winner of this game will play the winner of the Clippers' and Huskies' game in the finals Saturday night. The champion Saturday will advance to Columbus March 21.

Tomorrow's clash will be the fifth time the Clippers have advanced as far as regional play. Their last appearance was in 1964. Back in 1947, Columbiana was state champions after being runnerup in 1945.

Northwestern and Dillonvale have performed previously in Canton regionals but this makes the first time for Hartford.

South Dakota, swinging along on an 18-game winning skein, will be seeking a measure of revenge from the Illinois team. Wheaton knocked the Coyotes out of the semifinals last year, 90-80.

In Wednesday's second game, South Dakota snapped a tie in the last four minutes with seven free throws to defeat Southwest Missouri State 63-58 to gain the semifinals.

## Chapman Bows 81-64 To Wheaton

EVANSVILLE, Ind. (P)—A poised, well-balanced Wheaton College team takes on dangerous South Dakota, and host Evansville meets sharp-shooting St. Michael's in tonight's semifinals of the NCAA college basketball tournament.

Wheaton's defending champions moved through Wednesday's quarterfinal opener of the meet in Roberts Memorial Stadium with a 81-64 decision over Chapman of Orange, Calif., smallest school in the field with a 300 enrollment.

The lead switched 16 times in the first half before Wheaton broke the game open with a 14 point surge in the first 7 minutes after intermission. Froth then on, it was a rout with Bill Gerig totaling 20 points and John Dobbert hitting 19 in gearing the Crusaders to their 22nd straight victory.

South Dakota, swinging along on an 18-game winning skein, will be seeking a measure of revenge from the Illinois team. Wheaton knocked the Coyotes out of the semifinals last year, 90-80.

In Wednesday's second game, South Dakota snapped a tie in the last four minutes with seven free throws to defeat Southwest Missouri State 63-58 to gain the semifinals.

## Unranked Mims Decisions Webb

Victor Immediately  
Demands Title Bout

FORT WAYNE, Ind. (AP)—Jubilant Holly Mims, unranked middleweight won a unanimous decision Wednesday night over Spider Webb, No. 3 in the ratings, and immediately demanded a title fight.

He wants to meet the winner of the Carmen Basilio - Sugar Ray Robinson title bout in Chicago March 25.

Mims, 29, a veteran of 65 professional bouts and once ranked No. 3 middleweight, said he was not interested in meeting anybody but the champion.

The Washington, D.C., fighter, beaten 16 times but never knocked out, started a comeback Jan. 22 by fighting a draw with Bobby Boyd, No. 8 middleweight, at Miami Beach.

Mims was the aggressor all the way Wednesday night. He floored the Chicago fighter with a flurry of punches in the sixth round for a nine-count. Webb suffered a cut over the left eye but it didn't seem to bother him. He fought back vigorously after the knockdown.

He said later he was off balance when he was knocked down.

Webb, supposedly headed for a title bout in the near future, was bitterly disappointed by the defeat, his third in 29 fights, and said he thought he won.

But the 26-year-old former national collegiate champion, who weighed 157½ to 154¼ for Mims, was never able to push an advantage against Mims.

## St. John's To Take On Butler in NIT

By The Associated Press  
Basketball's March madness reaches its wackiest peak tonight with the NIT bucking in on the NCAA big college, NCAA small college, and the NAIA in the alphabetical battle for national tournament honors.

The National Invitation Tournament, a 12-team affair, opens at New York's Madison Square Garden with two of four first-round games: St. John's of New York (16-6) vs. Butler (16-9) and St. Joseph's of Philadelphia (17-8) vs. St. Peter's of New Jersey (20-3).

The NCAA Small College Tournament reaches the semifinal stage at Evansville, Ind., with defending champion Wheaton of Illinois playing South Dakota (the club it bounced in the semis a year ago), and host Evansville meeting St. Michaels of Vermont.

The NAIA Tournament at Kansas City heads into the quarterfinals with these pairings: Tennessee State vs. East Texas, Western Illinois vs. Youngstown (Ohio), Coe (Iowa) vs. Texas Southern, and West Virginia Wesleyan vs. Georgetown (Ky.).

And the NCAA Tournament for the big schools, under way since Monday, regroups for regionals at Charlotte, N.C.; Lexington, Ky.; Lawrence, Kan.; and San Francisco starting Friday after Idaho State and Seattle won the last of the first-round games.

Seattle, with All America Elgin Baylor scoring 26 points and dabbling in playmaking too, crushed Wyoming's Skyline Conference champions 88-51 in the second game of a double-headed at Berkeley, Calif. Idaho State's Rocky Mountain champions downed the Border champs, Arizona State of Tempe, 72-63, in the first game. The winners advance to the Far West NCAA regional at San Francisco Friday night.

Baylor's 26 points dipped his season average to 33.3 compared with 34.5 for Cincinnati's Oscar Robertson, the national leader.

Friday, Seattle plays San Francisco and Idaho State faces California.

## DiSalle Predicts Victory at Polls

Recommends Change  
In Giving Aid to Aged

CLEVELAND (AP)—Michael V. DiSalle, seeking the Democratic nomination for governor, told a radio audience Wednesday night that he believes this will be his "pennant-winning year."

Appearing on a (radio) program, the former Toledo mayor answered questions phoned in by the radio audience.

Asked why he thought he could win this year after losing three times in statewide elections, DiSalle answered:

"I've seen a ball club lose as many as seven straight games and then go on to take the pennant. I think this is a pennant-winning year for me."

In response to other questions DiSalle said:

The \$65-per-month ceiling on aid for the aged should be removed and payments made on a basis of need.

The state should not ask for a "say of execution" on payment of supplemental unemployment benefits while the case is being appealed.

Blue laws are "antiquated" and cannot be strictly enforced.

Commenting on a proposed amendment to the state constitution which would ban the union shop, DiSalle said "the less the government enters into the collective bargaining arrangement the better."

## 1 Dead, 3 Ill of Carbon Monoxide Poisoning

DAYTON, Ohio (AP)—Carbon monoxide poisoning was blamed today for the death of one man and the illness of three others, all employees of the city water department's maintenance division.

Raymond Hurless, 63, was taken to the hospital last night from the maintenance headquarters and at first it was thought his condition due to a natural illness. When he died early today, Deputy Coroner Harry Bloomer said death probably was due to carbon monoxide poisoning.

Early today the three other employees of the department were hospitalized for treatment of carbon monoxide poisoning. They are Chester Sizemore, 23; Robert F. Gillen, 41, and Burder Anderson, 44.

Firemen went to the scene in an effort to discover a gas leak.

## Couple of Akron Fans Caught 'Greenhanded'

ZANESVILLE, Ohio (AP)—A couple of over-enthusiastic Akron basketball fans were caught greenhanded at Zanesville High School today.

Two boys—Charles Casey, 18, and John Degan, 18—who identified themselves as seniors at Akron's St. Vincent High School, were met by police as they emerged from Zanesville's new four-million-dollar high school.

One of them was carrying a can of green water-base paint.

Police discovered that more than 30 windows of the school had been decorated with slogans in praise of the prowess of the St. Vincent basketball team.

St. Vincent, with a season won-loss record of 17-6, meets Zanesville (22-0) in the regional tournament at Kent tonight.

**FOR ROAD WORK**—Sen. Albert Gore (D-Tenn.) has proposed that the nation's highway construction program be about doubled this year as an anti-recession measure. Gore, chairman of the Senate Roads subcommittee, said he will press for such legislation before Easter. The present plan calls for work this year on 1.2 billion dollars worth of contracts on the 41,000-mile network of interstate superhighways.

## Muddy Diesel Hoisted Out of Lake Michigan

TWO RIVERS, Wis. (AP)—A muddy diesel locomotive was hoisted out of Lake Michigan Wednesday, but authorities were unable to find immediately any clue why it went into the harbor a week ago.

There was nothing in the cab to indicate anyone had tampered with the controls, according to Frank Ellis of Chicago, chief special agent for the Chicago & North Western, owner of the engine.

Ellis said the engine would be taken to the yards at Green Bay for a minute mechanical inspection to determine whether a faulty mechanism had sent the engine and nine loaded freight cars on an unmanned trip from Manitowoc last Friday.

Authorities did not discard the theory that the train might have been stolen while the crew was eating breakfast in Manitowoc. The thief could have jumped clear. Two freight cars followed the engine into the water. The other cars remained on the tracks.

## Gallery of Borrowers

By HAL BOYLE

NEW YORK (AP)—"Neither a borrower nor a lender be," wrote William Shakespeare.

It is obvious from this line that Shakespeare never worked in a modern business office.

If he had, he probably would have rewarded his advice to read: "Never lend more than you can borrow yourself."

It is almost impossible to work in the average office now without being both a borrower and a lender.

A man who won't now and then help tide a fellow worker over a rough spot is regarded as a sanctimonious churl. He couldn't be more unpopular if he were in the pay of a foreign power. He is known as "the grouch" and everyone hopes Santa Claus will give him an ulcer for Christmas.

Bosses sometimes try to curb

borrowing in their offices, but this is rather like trying to stamp out a forest fire barefooted.

It takes all kinds of borrowers to make a world, and perhaps you recognize a few of the following types in the world where you work:

1. The big operator—He has just got a hot inside tip on the market, and if you lend him \$500 now you will be doing yourself a favor as he will be in a position to pay you back double—maybe even triple—within a month when the stock blows its top. Actually, however, any company would be smart to pay this guy not to buy

its stock, because as sure as he does, it will go down.

2. The bird dog—This gentle soul never borrows for himself. He just likes to go around and borrow for those too proud to borrow for themselves.

3. The cold calculator—He figures that if he borrows \$10 from everyone in the office he will have enough to make a down payment on his house and won't have to pay interest to a loan company.

4. The Tragedian—wet-eyed, he reaches for your pocketbook as he unfolds a tale of woe that would

melt a stone. His life is one disaster after another. He counts that day lost on which no catastrophe befalls him that will give him an excuse for borrowing.

5. The addict—He is a compulsive borrower—just can't help himself. But you don't have to lend him money. Anything will do—a cigarette, a pencil, a used paper clip. He will go away happy. Well, there they are—a gallery of the more common office borrowers.

BREATHTAKING GETUP—

A cry baby for science, volunteered Kay Kerdran models the plastic mask she'll wear as part of a new air pollution experiment on the University of California's Riverside campus. Smog will be pumped inside the mask, and also applied to plants to determine if eye irritations and crop damage result from the same chemicals in the combination of smoke and fog. Kay will breathe pure air through the respirator she's holding.

### Bunker Hill

Pastoral relations and finance commission will meet Wednesday evening at 9 p.m. at the church following the Wednesday evening "Hour of Inspiration" services.

The W.S.C.S. of Bunker Hill Church will entertain the Winona W.S.C.S. at a meeting Thursday evening at 7 p.m. at the church.

The speaker will be Miss Es-

ther Stoffer, a returned missionary from Korea.

Miss Stoffer will illustrate her talk by showing slides of various scenes in Korea.

The hostesses for the evening will be Mrs. Harry Smith, Mrs. George Lungociu and Mrs. Robert Biery.

Mrs. Ray Stanley and Mrs. Ethel McLaughlin will be in charge of the program and worship services.

MRS. RAY STANLEY accompanied her son-in-law and daughter, Dr. and Mrs. William Mc-

Crea of Alliance, to Cleveland Wednesday where they attended the Cleveland Home and Flower Show. Dr. and Mrs. McCrea and family recently returned from a vacation spent in Puerto Rico.

A large group of Brownie and girl Scout troops along with their leaders and families from Damascus, attended church services at Bunker Hill Sunday.

The Boy Scout troop, sponsored by the Bunker Hill Church, met at the church Monday.

## Salad for St. Patrick's Day

Here's a shamrock salad for St. Patrick's Day entertaining. The body of the salad is made from chopped eggs, mayonnaise, grated carrot and seasonings molded with unflavored gelatin. Then layers of green-colored lemon gelatin are added to give the appropriate touch.

Although the green layers have lemon juice added, they are definitely sweet; many people like this sweet flavor on a buffet table starring ham.

### Shamrock Egg Salad Mold

Ingredients: 1 package (3 ounces) lemon-flavored gelatin, 1 1/2 cups boiling water, 1/4 cup lemon juice, blue food coloring, 1 envelope unflavored gelatin, 1/4 cup cold water, 1 tablespoon prepared horseradish, 2 tablespoons lemon juice or cider vinegar, 1/4 cup mayonnaise, 1 teaspoon finely grated onion (pulp and juice), 3/4 teaspoon salt, 1/4 teaspoon white pepper, 1/4 teaspoon dry mustard, 6 hard-boiled eggs (chopped), 1/2 cup finely grated carrot, chichory, ripe olives.

Method: Dissolve the lemon-flavored gelatin in the boiling water. Cool slightly. Stir in lemon juice and enough blue food coloring to color pale green. Pour enough into a 1-quart shamrock shaped mold to give a layer about 1/2-inch deep. Chill until firm.

Cool remaining lemon gelatin until a little thicker than the consistency of unbeaten egg whites. Soften unflavored gelatin in the cold water. Dissolve over boiling water.

Add horseradish, lemon juice, or vinegar, mayonnaise, onion, salt, pepper and mustard; mix

well. Stir into eggs and grated carrot. Complete the mold in layers as follows.

Place half of the egg salad over firm green layer, half the remaining thickened green gelatin, the remaining egg salad, and lastly the remaining green gelatin. Chill several hours until set.

Unmold on a chilled serving plate. Garnish with chichory and ripe olives. Makes 10 to 12 small servings suitable on a buffet table where there are other main dishes.

Note: Make sure the green-colored gelatin is just thick (or set) enough when added to stand up in a layer when it is turned over the egg salad mixture. If it is too thin, it will not make a distinct demarcation; if it is too thick, the layers will not adhere well.

## Man Found Dead Near Lisbon Is Identified

LISBON — The body of a man who died of asphyxiation by carbon monoxide gas in a station wagon near Lisbon Tuesday has been identified as that of James Q. McClelland, 41, of Youngstown.

His body was discovered in the vehicle in a field off the Franklin Square Road about four miles north of Lisbon. A hose had been connected to the exhaust of the station wagon and inserted into the interior of the vehicle.

He had operated the McClelland Catering Service in Youngstown.

The body was taken to the Weller Funeral Home in Youngstown. County Coroner E. R. Sturgis is investigating.

## Pork Should Be Cooked Thoroughly

Pork is now in abundant supply, according to the U.S. Department of Agriculture. One of the most important of meats nutritionally, and one of the most popular, it must be thoroughly cooked.

Raw or underdone pork products may cause trichinosis. Few of the millions of hogs killed each year for food have living trichinae in their muscles, but since there are some, you always should eat only thoroughly cooked pork. Cooking pork until well done kills the worms, according to the Agricultural Research Service's new leaflet No. 428.

According to the leaflet, in cooking pork, remember that large pieces must be cooked longer than small ones because heat penetrates slowly into the center of the meat. Large pieces that are well cooked on the outside may be underdone or raw at the center. Take particular care to cook pork chops well done. A good test for "doneness" of chops and loin roasts is to make small cuts next to the bone and into the thicker part of the meat. If the meat is still pink, it is not well done.

Using a meat thermometer, heat tenderized picnic shoulders to an internal temperature of 170 degrees F., cured hams to 160 degrees F., and fresh pork to 185 degrees F. Without using a meat thermometer, cook large thick cuts of pork at least 30 minutes to the pound. Frozen or very cold meat takes longer to cook than meat of room temperature.

Here's the complete list of plentiful foods for March:

Pork, dried prunes, canned, frozen corn, dairy products, eggs, canned pears, apples, peanuts, peanut products.

## Avocado Salad

Ingredients: 1 cup cold water, 1 envelope unflavored gelatin, 1½ cups sieved avocado, 3 tablespoons lemon juice, 1-3 cup mayonnaise, 1 teaspoon salt, ½ teaspoon white pepper, 1 teaspoon finely grated onion (pulp and juice) or ½ teaspoon instant dehydrated onion, salad greens, 3 or 4 oranges.

Method: Put water in a saucepan and sprinkle gelatin over it. Stir over low heat until gelatin softens and dissolves. Mix sieved avocado with lemon juice, mayonnaise, salt, pepper and onion; stir in dissolved gelatin thoroughly.

Fill individual molds with mixture; cover tightly with plastic transparent wrapping; refrigerate until set.

## Lobster with Piquant Sauce for Lent

By CECILY BROWNSTONE  
Associated Press Food Editor

Frozen rock lobster tails, available all over the country, make a saucy dish for a ladies' lunch during Lent.

The tails are boiled first, then the lobster meat is removed, diced and marinated in herb vinegar. Finally the lobster is added to a creamy sauce, colored a faint pink with paprika, and served with steamed rice.

If you like, you can pile the lobster meat and just a little of the thin sauce back into the

shells, cover with tiny buttered bread cubes and broil until flecked with brown. The sauce and any lobster that remains should be served piping hot atop the rice.

Or forget about the shells and serve the heated lobster and sauce as is over the rice; we like this way best because it's easiest to eat.

### Lobster Piquant

Ingredients: 6 South African rock lobster tails (4 or 5 ounces each), 1 1/2 quarts boiling water, 1 1/2 teaspoons salt, 2 tablespoons fresh garlic-flavored red wine vinegar, 4 tablespoons butter of margarine, 3 tablespoons flour, 1/2 teaspoon salt, 1/2 teaspoon paprika, 1 1/2 cups homogenized milk, 1/4 cup heavy cream.

Method: Place lobster tails, boiling water and 1 1/2 teaspoons salt in a kettle over high heat un-

til water begins to bubble; if tails are thawed continue to boil gently 5 to 6 minutes or until meat is opaque through; if tails are frozen add 3 minutes more to the boiling time.

Drain and rinse with cold water. With kitchen scissors, cut down both sides of soft undershell. With thumb inserted between shell and meat at top of tail, pull lobster meat away in one piece.

Dice lobster; sprinkle with wine vinegar. Melt butter in 2 quart saucepan over moderately low heat; stir in flour, 1/2 teaspoon salt and paprika; add milk all at one time.

Cook and stir constantly until bubbly and thickened. Stir in the cream and lobster meat, including any of the wine vinegar not absorbed. Reheat slowly; do not boil.

Serve with hot steamed rice. It makes 6 servings.

Note: If you wish to serve the lobster in the shells, reheat lobster in sauce as directed, then fill the shells with the lobster meat, draining it lightly with a spoon so as to add only a little of the thin sauce; if you add too much sauce it will run over. (Serve remaining sauce and any lobster, separately).

Melt 2 tablespoons butter in an 8-inch skillet and mix with 2 slices of bread that have been cut into tiny cubes. Sprinkle lobster with the buttered bread cubes and place on aluminum foil about 5 inches from medium broiler heat until bread cubes are lightly toasted.

About three out of 10 American families do not get enough calcium for daily requirements. Experts point out that milk has 100 or so different food nutrients for vim, vigor and vitality. Milk can help build and repair tired and frazzled muscle and nerve tissue and provide "go power" needed to meet today's working and living demands.

## Apricot Bars

Ingredients: 1 cup sifted cake flour, 1 teaspoon double-acting baking powder, 1/4 teaspoon salt, 1/2 pound (1 1/4 cup) butter or margarine, 1/2 cup firmly packed dark brown sugar, 1 large egg, 1 teaspoon vanilla, 1-3 cup chopped soft dried apricots, 1-3 cup chopped walnuts.

Method: Sift together the cake flour, baking powder and salt. Cream butter and sugars with egg and vanilla. Stir in sifted dry ingredients until smooth; stir in apricots and walnuts.

Turn into greased baking pan (8 by 8 by 2 inches); bake in moderate (350 degrees) oven about 23 minutes or until cake tester in-

serted in center comes out clean; do not overbake.

Place pan on wire rack to cool; cut in small bars with sharp knife and remove with spatula. Store in tightly covered container.

## Household Hints

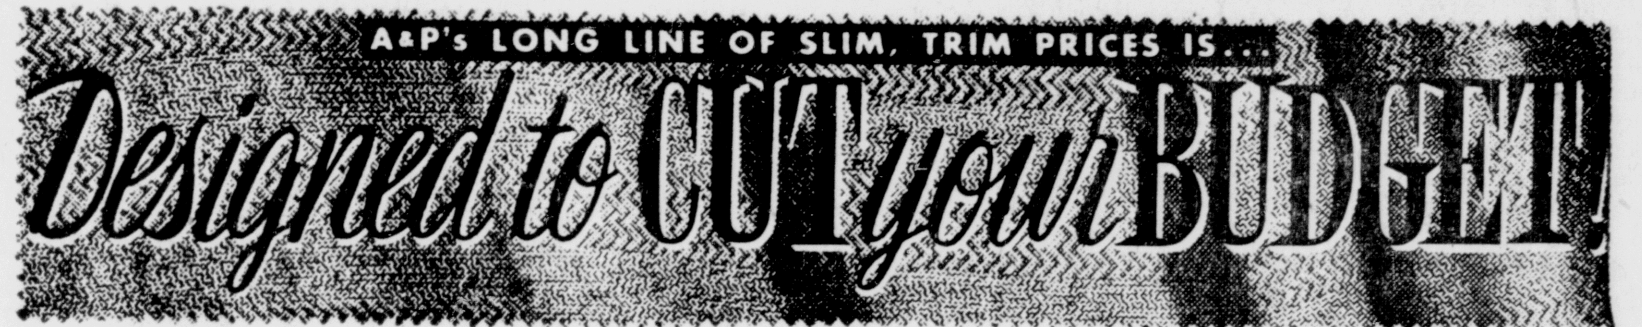

Are you balancing your calories against those nasty scales? Then you are becoming a junior nutrition expert. To help choose your diet foods, you will find about an equal amount of protein in one egg, one ounce cheddar-type cheese, one ounce cottage cheese (two tablespoons) or one ounce of cooked meat, fish or poultry.

Small servings of food may encourage a child to eat more. A tiny tot may be overwhelmed by an adult-size portion. Let him eat the small portions first, then ask for more.

# Paddy's Stew Is Delicious

By GAYNOR MADDOX In Ireland it is made principally from cheaper cuts of button along, let's get the lowdown on authentic Irish stew. ly from cheaper cuts of button with onions and potatoes. The meat is brought to the table with the

vegetables around it, the gravy being served separately. The American version is made from cheaper cuts of lamb with three or four vegetables. Meat, vegetables and gravy are all served together.

## Lamb-Vegetable Irish Stew—American Style (8-10 servings)

Trim excess fat from 2 pounds boneless shoulder or neck of lamb. Brown meat on all sides in Dutch oven or 4-quart saucepan in some of the fat trimmed from the meat. Add 4 cups boiling water, 3 sprigs parsley, 3 ribs celery, 1 teaspoon fresh lemon juice, 1/2 teaspoon of whole peppercorns (tied in a bag) and 4 teaspoons salt. Cover tightly and simmer about 1 hour and 15 minutes. Add 1 1/2 dozen peeled small white onions, 8 peeled and quartered carrots, 4 medium peeled and quartered potatoes and cook 30-40 minutes or until meat and vegetables are tender. If desired add 1 cup shelled fresh peas or snap beans 15-20 minutes before cooking time is up. Thicken with 1/3 cup flour mixed to a paste with 1-3 cup water. Cook to medium thickness. Serve hot.

## Irish Stew (Yield: 6 servings)

Trim excess fat from 2 pounds boneless shoulder of lamb or mutton. Cut into 1-inch cubes. Place in Dutch oven or heavy 4-quart saucepan along with 1 peeled and chopped onion and 1 peeled and sliced potato. Add 2 cups water, 2 1/2 teaspoons salt and 1/4 teaspoon ground black pepper. Cover and cook slowly 1 hour. Peel 6 potatoes and 12 onions and place over meat. Cook, covered, 40 minutes longer or until meat and vegetables are tender. Place meat in center of warm serving dish. Place onions and drippings and thicken with 2 tablespoons flour mixed to a smooth paste with 2 tablespoons cold water. Cook, stirring constantly, until clear and slightly thickened. Serve in a gravy boat.

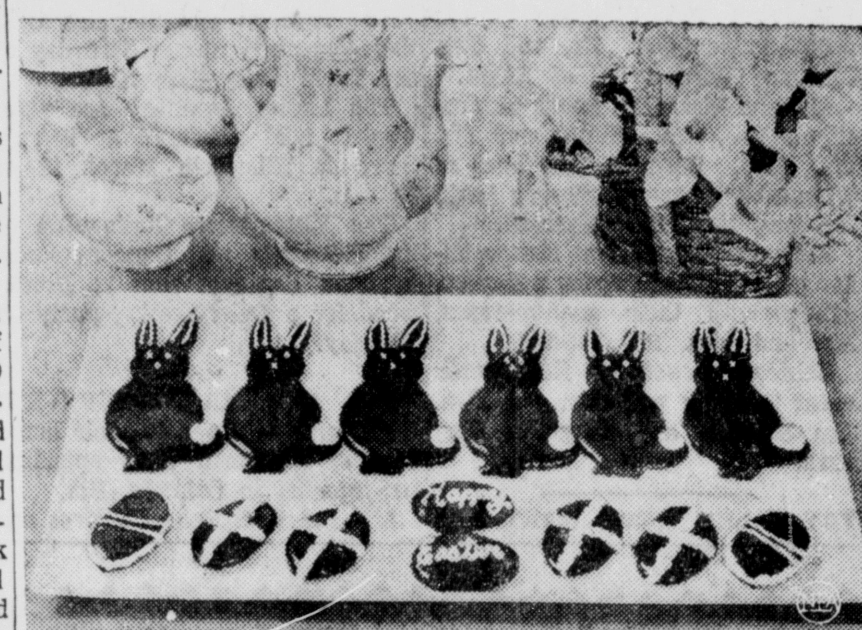

## Chocolate Cake

One package instant chocolate chip cake mix, cocoa whipped cream. Prepare cake according to packaged directions. Pour batter into 13x9x2-inch pan, which has been greased and floured on bottom and sides. Bake in moderate oven (375 degrees F.) 35-40 minutes. Cool. Cocoa Whipped Cream (Makes 4 cups) Two cups whipping cream, 4 tablespoons cocoa, 8 tablespoons confectioners' sugar, 1/4 teaspoon salt, 2 teaspoons vanilla. Combine ingredients in small bowl. Chill 1 hour. Then beat until cream holds its shape. (Do not overbeat).

## Cookies For Easter

## Easy to Make, Easy to Eat

Bunnies and eggs with chocolate shells for the Easter baskets and everyone is delighted. You, yourself, will have fun in the making of them. Very easy, really.

## Chocolate Dipped Easter Cookies

Prepare cookie dough from favorite butter cookie recipe or packaged cookie mix. Roll out dough 1/4-inch thick on lightly floured board or pastry cloth. Cut out bunny and egg cookies with cardboard pattern, or use bunny cookie cutter. If desired, use a 2-inch round cutter bent to make an oval shape for egg cookies. Bake according to directions. Cool. Dip cookies in chocolate dip. As each cookie is dipped, scrape off frosting from back of cookie. Let harden on cake rack, placed over waxed paper. Decorate with Ornamental Frosting, using cake decorator.

## Chocolate Dip (Enough for 4 dozen medium cookies)

One 6-ounce package (1 cup) semi-sweet chocolate morsels, 1 tablespoon shortening, 1-3 cup evaporated milk, 1 cup sifted confectioners' sugar. Melt semi-sweet chocolate morsels and shortening over hot, not boiling, water. Remove from heat; stir in evaporated milk and confectioners' sugar. Beat until smooth. Turn into measuring cup; place over low heat in saucepan of hot water, stir frosting occasionally while dipping. Ornamental Frosting One and one-quarter to 1 1/2 cups confectioners' sugar, 1/4 teaspoon cream of tartar, 1 egg white, 1/4 teaspoon vanilla. Sift together confectioners' sugar, and cream of tartar; 1 egg white and vanilla. Beat in electric mixer until frosting holds its shape. Cover with damp cloth when not in use.

## Household Hints

If only little boys were as dirt-resistant as the man-made fibers. But synthetic fibers need special handling even as the little guys do. If washing a synthetic by hand, such as Fiberglas curtains, never wring or twist it. In a machine avoid wrinkles by using short cycles, but no spin-drying and a very light load. Let the curtains drip dry.

Although rugs get constant wear and tear, they often are the last items in a home to be cleaned. Regular vacuuming needs to be followed once or twice a year with a full cleaning. This may be done professionally or with a home cleaning aid. But it should be done — for the life and beauty of the rug.

# Heavenly Rice Is Good, Tasty Dessert

There are some foods that bring nostalgic yearnings. One such is Heavenly Rice . . . sometimes Mother made it with one kind of fruit, sometimes with several, and once in a while she added shredded coconut. It always had rice, chopped nuts and whipped cream.

Now is a good time to treat the family to this good old fashioned dessert. Rice is plentiful and a good buy as are canned fruits. Cranberry sauce gives it a delicate bluish and sparkling canned fruit cocktail makes it picture pretty as well as real good eating.

**Old Fashioned Heavenly Rice**  
1 can (1 lb.) fruit cocktail, 1 cup canned whole cranberry sauce, 1 banana, 1/2 cup coarsely chopped nuts, 3 cups chilled cooked rice, 4 cup sugar, 1 cup whipping cream.  
Mix drained fruit cocktail, cranberry sauce, sliced banana, nuts ingredients; mix well. Simmer over low heat, stirring occasionally, for about 20 minutes. Serve on toast or toasted rolls.  
Makes six to seven servings.

## Barbecued Beef

One pound ground chuck, 1 cup finely crushed cornflakes, 1/4 cup (1 envelope) instant nonfat dry milk powder, 1/4 cup molasses, 3 tablespoons cider vinegar, 2 tablespoons Worcestershire sauce, 1 teaspoon salt, 1 teaspoon dry mustard, 1 teaspoon paprika, 1/4 teaspoon chili powder, 1/2 teaspoon pepper, 1/2 cup catsup, 1/4 cup water.  
Combine beef, cornflakes and instant nonfat dry milk powder in large skillet; blend until powder is no longer visible. Brown over medium heat, stirring occasionally with a fork. Add remaining ingredients; mix well. Simmer over

low heat, stirring occasionally, for about 20 minutes. Serve on toast or toasted rolls.  
Makes six to seven servings.

## Noodles Vienna

One 12-ounce package wide noodles, cooked and drained, 1/2 pint cultured sour cream, 1 teaspoon salt, 1 teaspoon poppy seed, 1 teaspoon sesame seed, 1 teaspoon celery seed, 1 clove garlic, crushed, or 1/2 teaspoon powdered garlic.  
Combine all ingredients and toss lightly to blend. Turn into 2-quart casserole lined with quilted broiler foil, cover with foil, and store overnight. Reheat the following day with the chicken.

# Inside Labor

By Victor Riesel

There are over 5,000 separately-owned telephone companies in the land — including one belonging to an Amish "plain folk" family in Pennsylvania. You can't buy into that one. But there is another communications outfit known as the American Telephone and Telegraph Co., which is selling a bath of stock below the market price. However, you can't buy into that bloc either — unless you're a member of the AFL-CIO's Communications Workers of America.

Soon, that bloc of stock totalling some seven million shares, worth about 750 million dollars will be owned by the union's membership. The union and its leader, 47-year-old Joe Beirne, want the members to buy into the company.

Beirne, rapidly moving into the upper echelons of the AFL-CIO Executive Council, has for weeks been urging his 250,000 followers employed by A.T. & T. to oversubscribe the stock issue, ever since A.T. & T. offered it to the workers.

Beirne, as modern as next year's Explorer and moving just about as fast, recently called together 1,000 of the CWA's local presidents and officials. They met in Chicago's Hotel Sherman on Feb. 26 and 27.

AS BEIRNE relates it, he had received strong support for the stock purchase move from all except "the one guy you find in every crowd."

"The fellow got up and said he was through with the union for telling him to buy into the company and help it with further financing," Beirne reported.

"The fellow said this would divide his loyalty between the company and the union. I told him what I believe — and you can kid me about it sounding polyanish. But it makes real sense to me to help the outfit you work for to expand."

"I told the complainer that it is not the union's purpose to take all loyalty from the workers and leave none for the company. It isn't a question of loyalty anyhow. This is a union which believes in our economic system, the American economy in general, and specifically in those companies whose workers we represent. We want these firms to be successful."

The company, on Jan. 15, offered to set aside seven million shares over a five-year period for its employees to buy at 85 per cent of the market value.

There was only one condition. The stock must be selling for more than \$100 a share on the Exchange on April 1. There seems to be not the slightest chance that the stock will dip under that. This week it is selling in the neighborhood of \$170 a share.

THIS MEANS that each employee buying a share will immediately make a \$25 profit if the market holds steady.

Since A.T. & T. was the nation's biggest money maker last year, this means that each union member will also be sharing in the profits of a mighty successful company from now on.

Furthermore, the stock can be bought by the union members on the installment plan. The company has agreed to take regular payments out of the weekly pay

checks of those who want to buy the stock.

The number of shares to which each union member is entitled will depend on how much money the particular worker is earning on April 1. The exact formula can be obtained from the union or the company.

It is important to remember here that the national labor law requires union agreement before the company can offer a stock purchase plan to its workers. Two days after this plan was announced by the company, Joe Beirne and his colleagues agreed to it.

WHEN ASKED why the union moved so swiftly, Beirne answered:

"Union members have invested their time, energy, talents and skills in the business. They should not be afraid to invest their money. . . ."

"The union, CWA, believes that the need for new capital for the expansion of our business is so

cially and economically desirable both for the public and the members of our union. It means increased and improved service to the public. Such expansion means more jobs and hence more wages and income."

And what better moment is there than today to help more people earn their daily bread.

## 'Ham' Enables Salem Mother To Talk To Son

Thanks to a radio ham operator in Cincinnati, Mrs. Edwin Evans of RD 3, Salem, was able Tuesday evening to talk to her son Kenneth, who is stationed with the army in Quito, Ecuador.

The "ham" telephoned her last night and through his set she talked to her son, who was on another radio in Quito, for a few minutes. Mrs. Evans said she was so excited she neglected to get the ham operator's name.

Kenneth is a 1956 graduate of Salem High School. He took his basic training at Ft. Carson, Colo., and has been in Ecuador since January.

Birthingstone of August is Sardonyx.
